

ENVISION SILVERTON 2035

VISION AND CITY STRATEGIC PLANNING FINAL REPORT

Executive Summary

The Envision Silverton Project started in fall of 2015 and lasted through late spring of 2016. HDR, along with Steven Ames Planning, was enlisted to guide a community vision development process and assist the council in developing a long-range strategic direction with robust input from the community.

During the project, community members had numerous opportunities to become engaged with conversations around the future of Silverton, and they responded. At community workshops, events, small group discussions and online, community members provided thousands of comments and suggestions about what they would like to see in Silverton's future. The result is a whole-of community vision and vision ideas in six key focus areas that will provide high-level strategic direction for years to come.

At its work session in late April 2016, the Silverton City Council considered the vision statements and the massive amount of input provided by community members. It led to several core values that the council discussed, refined, and finalized for the city.

The Core Values state:

As representatives of the City Of Silverton, we:

Care and Steward

We recognize the special nature of our community and advocate for maintaining and preserving its unique heritage, valuable infrastructure, natural resources, and quality of life.

Communicate and Collaborate

We inform and engage our community members in City activities and collaborate on decisions that affect them.

Anticipate and Lead

We proactively look toward the future to address our challenges and take advantage of emerging opportunities by building upon our strengths.

The council also reviewed the community's overall vision for 2035, which reads:

OUR VISION FOR SILVERTON IN 2035...

We envision a Silverton that honors its history, traditions and heritage, encouraging thoughtful change while celebrating our past, present and future. Our future Silverton is a connected community with broad citizen engagement, a clear vision for the future, and a detailed plan of action to achieve it. We envision a Silverton with a strong economy and viable, locally owned businesses, carefully balancing economic growth with our continued small-town livability, quality of life and affordability. Our Silverton is guided by a comprehensive plan for our future growth, with strong leadership, meaningful public involvement, informed decisions, and agreement on our community's key directions. We envision a Silverton that meets the basic needs of all of its residents, including quality jobs, affordable housing, accessible health care, and community safety. Education in our Silverton is a top priority for the entire community, providing our students with the best start in life, driving our community's progress, and shaping its future.

The council concluded its work session by discussing priorities and potential roles for the council and city staff to move the vision forward. From these council conversations, several areas clearly rose to the top as high priorities for significant city lead roles. The areas with full support of the councilors in attendance as a priority direction included:

- Maintaining and improving public infrastructure
- Encouraging meaningful dialogue through a partnership between citizens and leaders that builds trust, lets residents be heard, and results in real solutions.
- Encouraging open, honest communication, with multiple ways to share information, deliberate respectfully on important issues, and seek agreement on key decisions.
- Utilizing good communication and collaboration to help Silverton make tough financial choices and secure resources to fund our priorities.

The following sections of this report include the following:

- 1. The Silverton Vision Process
- 2. Focus Area Vision Statements
- 3. Community Involvement Activities and Input
- 4. Council Strategic Planning
- 5. Project Team Recommendations for Potential Next Steps

The appendices include:

- A. Sorted community input database
- B. Potential Lead and Supporting Partners Worksheets (6)
- C. Online Surveys
- D. Meeting-In-a-Box Materials

ENVISION SILVERTON 2035 VISION AND CITY STRATEGIC PLANNING

FINAL REPORT

Section 1 - The Silverton Vision Process

The Envision Silverton process to develop a community vision started in fall of 2015 and lasted through late spring 2016. HDR, along with Steven Ames Planning, was enlisted to guide a community vision development process and assist the council in developing a long-range strategic direction with robust input from the community. The process had four main tasks (depicted on the below chart). The first task established the

foundation for this project with small-group conversations and individual interviews to establish key topics of interest for the community. These early-project conversations provided introductions to some community members while informing communications and outreach plans to reach broader community interests in Silverton.

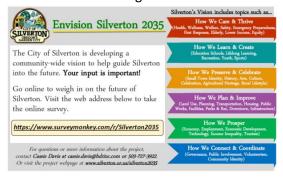

2015 OCT NOV DEC JAN FEB MAR APR MAY **Project Foundation** Vision Framework Vision Refinement and **Strategies** City Strategic Planning Milestones: Project Foundation City Strategic Planning (initial community interviews and small group discussions and research) Finalize Vision & Strategic Plan Vision Framework (solicit community feedback to inform draft vision statements) Vision Refinement and Strategies (solicit feedback on draft vision state strategies to accomplish vision) ments and potential

The second phase—establishing the vision framework—established the project's six

focus areas, which were refined during the course of the project as the project team gathered additional community input. The focus areas served as a foundational structure for the information gathered throughout the process. The focus areas included:

- HOW WE PRESERVE AND CELEBRATE
- HOW WE CONNECT AND COORDINATE
- HOW WE PROSPER
- HOW WE PLAN AND IMPROVE
- HOW WE CARE AND THRIVE
- HOW WE LEARN AND CREATE

The second and third phases of the project established the heart of the city's visioning process. During this task, the community was fully engaged in articulating vision ideas. These two tasks involved a wide range of engagement events and activities, resulting in a draft community vision statement including ideas for specific achievement strategies. Once the draft vision was created, community members had opportunities—through events, activities, presentations, and online surveys—to voice their thoughts about the vision and offer ideas about actions to bring this vision to life.

The final phase organized the vision components strategically for consideration of the Silverton City Council. The focal point of this phase was a strategic planning session for Silverton City Council, which was supported by community conversations around the last question of the vision process: "What are actions and strategies for achieving the Silverton vision?" As the process was iterative, the project team logged numerous suggestions for strategies and actions prior to the start of this phase.

Section 2 - Focus Area Vision Statements

In phase two and three, the community helped establish vision statement around its six focus areas. Two drafting committees of volunteers helped to craft the final language.

HOW WE PLAN AND IMPROVE

WE ENVISION a Silverton that is guided by a comprehensive plan for our future growth, with strong leadership, meaningful public involvement, informed decisions, and agreement on our community's key directions. In our vision, Silverton is open to new ideas and opportunities. We fund public amenities that enhance community and family life, carefully maintain and improve our public infrastructure, and consider community benefits in zoning decisions. A diverse mix of locally owned businesses in downtown and other areas are a focal point of Silverton's growth, along with support for its arts, culture, and natural attractions. Good planning in Silverton means our city has a sustainable economy, affordable housing and senior living options, bike- and pedestrian-friendly streets, ample parks and community spaces, and effective use of our public buildings.

HOW WE PROSPER

WE ENVISION a Silverton with a strong economy and viable, locally owned businesses, carefully balancing economic growth with our continued small-town livability, quality of life and affordability. In our vision, Silverton diversifies its economy, welcoming new investments that contribute to the community and create jobs that sustain our families and civic institutions. We also support thriving homegrown businesses that help retain Silverton's small-town feel, building on our natural assets and amenities to attract visitors, commerce and economic opportunity. As we grow, our bottom line is always attuned to balance, providing for the needs of our residents and visitors in a sustainable way. A balanced economy means Silverton is prosperous yet affordable, dynamic yet down-to-earth — a community where we continue to want to live.

HOW WE PRESERVE AND CELEBRATE

WE ENVISION a Silverton that honors its history, traditions and heritage, encouraging thoughtful change while celebrating our past, present and future. In our vision, Silverton maintains its small-town charm, with a vibrant downtown and variety of shops and small businesses that serve locals and visitors alike. A year-round farmers market connects the agricultural bounty of the region to our community, attracting visitors, supporting area farmers, and increasing the availability of fresh, healthy food. Silver Creek and Silverton Reservoir have been enhanced as our community's most prominent natural features with improved access and creek side amenities, including provisions for public safety and environmental protection. Silverton's rich heritage is kept alive through events, programs and experiences, keeping our community's past relevant – and making our future more confident.

HOW WE LEARN AND CREATE

WE ENVISION a Silverton where education at all levels is a top priority for the entire community, providing our students with the best start in life, driving our community's progress, and shaping its future. In our vision, Silverton has established high levels of transparency, communication and trust between schools and the community at large. We apply our collective knowledge, skills and resources to help our schools succeed, identifying funding, improving facilities, and developing educational resources that enable students to thrive. Silverton's schools take full advantage of local resources, including agriculture, arts and culture, while utilizing new tools to advance student learning. They promote learning, career and technology skills that help prepare local students for the labor force and support development of new jobs in the community. Multiple educational and vocational pathways help all Silverton students succeed, regardless of their chosen career track.

HOW WE CARE AND THRIVE

WE ENVISION a Silverton that meets the basic needs of all of its residents, including quality jobs, affordable housing, accessible health care, and community safety. In our vision, Silverton explores and develops new approaches, tools and resources to help ensure that basic community needs are addressed. Critical needs of low-income families, children and the elderly, including housing, nutrition and medical care, are a priority. Equity among our community members is important to us. Silverton's citizens are empowered to assist in meeting special community needs. Neighbors and local organizations look out for our community at the local level, focusing on safety, security and emergency preparedness. We engage, connect and volunteer to assure that a basic quality of life is available to every member of our community.

HOW WE CONNECT AND COORDINATE

WE ENVISION a Silverton that is a connected community with broad citizen engagement, a clear vision for the future, and a detailed plan of action to achieve it. In our vision, Silverton has exceptional civic pride and community involvement. A genuine partnership between citizens and leaders encourages meaningful dialogue that builds trust, lets residents be heard, and results in real solutions. We encourage open, honest communication, with multiple ways to share information, deliberate respectfully on important issues, and seek agreement on key decisions. Good communication and collaboration helps Silverton make tough financial choices and secure resources to fund our priorities. Dedicated volunteers and community giving help address some of our community's unmet needs. Silverton's leadership reflects the entire community and people of all backgrounds are empowered to lead. We see our growing diversity as strength and an opportunity.

ENVISION SILVERTON 2035 VISION AND CITY STRATEGIC PLANNING FINAL REPORT

Section 3 - Community Involvement Activities and Input

One of the project highlights was the community's willingness to offer their opinions and participate in the process. Recognizing that one outreach technique does not work for all community members, the project

team offered three pathways into the project: participation in project-sponsored activities, online activities, or with or in conjunction with activities sponsored by individuals, schools, businesses or community organizations.

The community involvement program sought to hear from more than those community members who are frequently involved in community affairs. Two community-wide workshops provided an opportunity for community members to discuss ideas with one another, and numerous smaller events, activities and presentations captured additional dialogue about Silverton's strengths, areas for improvement, visions for the future, and potential actions to get there.

Use back for comments and new ideas (if any).

An enthusiastic team of outreach volunteers expanded project awareness and involvement. With their help, at least 25 additional groups and community networks contributed to the project's community involvement.

Additionally, the project managed online polling to allow community members to participate at their convenience. More than 500 community members participated in the polling, completing nearly 1,200 surveys about the project's six focus areas.

To keep the city leaders informed and engaged, the project team provided three council briefings over the course of the project in addition to facilitating a Council Work Session.

Section 4 - City Council Strategic Planning

The City Council met Saturday, April 23, 2016 for a half-day work session to discuss the project and potential roles and priorities the council could take from the vision project input. The council reviewed the vision and revised and refined the core values for the city, based on input during the vision process.

A community-wide vision cannot be implemented by the city alone. As part of its discussions at the work session, the council discussed the City's long-term role on potential actions that support the vision: it could lead, it could partner with others, it could support in other ways, or it could play no role.

From these council conversations, several areas clearly rose to the top as high priorities for significant city lead roles. While these priorities do not provide definitive direction for all council deliberations, they should provide a starting point in the city's ongoing planning and decision-making, recognizing the city operates with limited resources.

The areas that had full support of the councilors in attendance as a priority direction included:

- Maintaining and improving public infrastructure
- Encouraging meaningful dialogue through a partnership between citizens and leaders that builds trust, lets residents be heard, and results in real solutions.
- Encouraging open, honest communication, with multiple ways to share information, deliberate respectfully on important issues, and seek agreement on key decisions.
- Utilizing good communication and collaboration to help Silverton make tough financial choices and secure resources to fund our priorities.

A second tier of Vision statements received high prioritization for either leading or partnership roles, though not to the degree of the first four items. These included:

- Considering community benefits in zoning decisions.
- Pursuing bike- and pedestrian-friendly streets, ample parks, and community spaces.
- Funding public amenities that enhance community and family life.
- Making effective use of the city's public buildings

A third tier are areas that have general council agreement on partner or support roles but limited, if any, support to lead potential actions in these areas. These included:

- Encouraging a diverse mix of locally owned businesses in downtown and other areas supporting Silverton's growth.
- Supporting Silverton's arts, culture, and natural attractions supporting Silverton's growth.
- Maintaining Silverton's small-town charm, with a vibrant downtown and variety of shops and small businesses that serve locals and visitors alike.

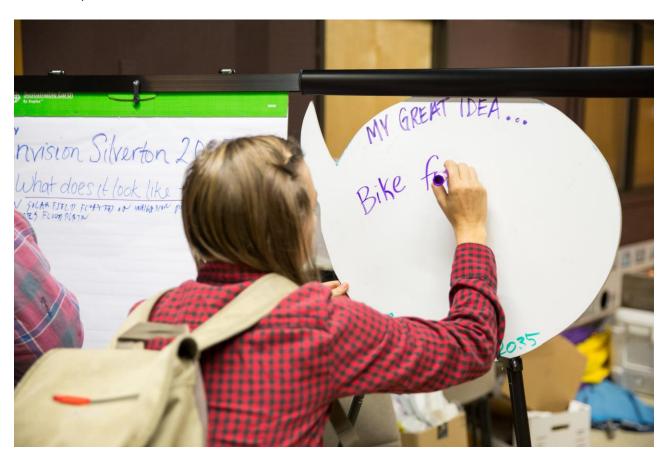

- Enhancing Silver Creek and Silverton Reservoir as our community's most prominent natural features, with improved public access and creek side amenities, including provisions for public safety and environmental protection.
- Keeping alive Silverton's rich heritage through events, programs and experiences, keeping our community's past relevant – and making our future more confident.

Silverton City Council provided additional consideration in the area of "providing for the needs of our residents and visitors in a sustainable way, keeping our bottom line always attuned to balance." The council's prioritization and role would depend on the need.

Councilors had wide disparity in their opinions on only a handful of vision statements, such as "pursuing affordable housing and senior living options." These areas would need further discussion among council to get clearer direction on what the Council's role should be.

It should be noted that those areas that did not rank as high priority for a council role does not indicate lack of interest or personal support among councilors, only that they're not seen as high priority for the City of Silverton as an agency. Many of the items in the *Learn and Create* Focus Area, where an agency such as the school district would likely have a leadership role, fell into this category.

The community conversations as part of the vision development process included many, many ideas for pursuing these vision statements. With these vision areas in place and prioritized, the vision is "action-ready." The action ideas in the database can be linked with each of the vision statements for further and more specific deliberation.

Section 5 - Project Team Recommendations for Potential Next Steps

The HDR team offered a Vision and Strategic Plan that would be action-ready in its project proposal. With the robust input from the community and the city's preferred directional roles now in place, the next logical step is to implement.

Based on experience with successful vision implementation in other communities, HDR recommends the following next steps for the City of Silverton:

- Mine the database
- Engage partners
- Maintain community engagement on future projects
- Consider a whole-of community action plan

Mine the database. The input provided during the vision process was rich in content. Though specific actions were not dealt with during this project, thinking about actions helps articulate many participants' visions. As a result, HDR asked about potential actions during the outreach activities. This information is now captured in the database (appendix A) and provides a wide variety of ideas and concept that merit consideration. Many align directly with the priorities that council established at its work session, while others apply directly to current and upcoming planning work. It can be easily coded and pulled from the database using the framework of the Focus Area Vision Statements. Understandably, they are not ready to simply implement; they deserve further vetting with the community and further deliberation among council, but they provide a great starting point.

Engage partners. The vision is a whole-of-community asset and should be shared. The deliberations among council about the vision, roles, and strategic direction toward implementation can be expanded among other organizations in town, such as the Chamber of Commerce, Rotary, the School District, the Historical Society, Silverton Senior Center and others. All these organizations will find components of the vision that apply directly to them. It can be an asset as they make future plans. With other organizations involved, the opportunities for partnerships expand greatly.

Maintain the engagement in the community on future projects. The Vision project established relationships among the community that the city can build upon for other projects. The database and participant lists allow the city to reach out to community members based on their interests, which leads to higher participation and greater satisfaction among participants. If not activated regularly, the community's interest will eventually wane. An obvious opportunity to connect with Vision participants would be to follow up on the Vision status and the city's future plans. Interactive forums worked well with the community during the vision process and should be considered for other city initiatives.

Consider a whole-of-community action plan. While each of the first three suggestions are steps in the right direction in implementing the vision, an action plan would provide a cohesive and central focal point to identify specific actions, create partnerships, and identify timelines and leadership roles to move the vision forward and implement actions. Moreover, it offers an ongoing forum for forward-thinking community dialogue about the future of Silverton.

L&C 1		WE ENVISION a Silverton where education is a top priority, providing our
		students with the best start in life, driving our community's progress and
		shaping its future.
L&C 1.1	Α	
L&C 1.1 L&C 1.2	AA	Building and maintaining safe, efficient and up-to-date technology opportunities. I see higher education, specifically graduate & post-graduate research centers, helping Silverton diversify its local population & economy with a more stable & responsible student body than is typical for an undergraduate "university town." Centers for graduate & post-graduate study would help Silverton differentiate itself from Salem university programs and also boost life-long learning opportunities for agricultural, environmental and land management, including planning & policy fields (e.g. more reasons for professionals in Salem, maybe even Portland, to visit Silverton for 3-7 days of training or weekends of continuing education). I see potential for an OSU satellite campus, focusing on OSU agricultural, environmental, forestry, land planning & management programs. Such areas are a match for Silverton's historical farming roots, current natural resources and complex sustainability challenges facing the state, nation and even the world. On a local & physical level, Silverton can supplement and expand Corvallis advanced offerings &/or research in a different part of rural Willamette Valley. Advanced research, along with hands-on internships, might be coordinated with related county & state agencies, e.g. Marion County Water & Soil Conservation. The same potential is possible in the private sector: professional nursery associations and local agricultural cooperatives might help include smaller farmers. Even high school & junior high students could benefit by having additional role models to
		observe. More local youth might see a connection between advanced education, a professional career path, and the rural and outdoor life they experience in eastern Marion county.
L&C 1.3	Α	Pass a bond
L&C 1.3	A	we analyze follow up information about what our high school graduates are doing and use some of that
Lac 1.4	A	to bolster our current programs. Are our grads being prepared for their post high school pathwhether it is a community college or a 4 year college or the work world. Are we using key community leaders to answer some of these questions, e.g., what does it take to be a farmer (or mechanic or chef or ?) today and what preparation do these young folks need?
L&C 1.5	Α	Silver Falls School District is one of THE LOWEST PAYING districts in the state of Oregon. This is quite
		frankly unacceptable. And if you want education to be a top priority, you need to find excellent teachers and pay them more. I know a large number of young, talented, new teachers to the district who are thinking about leaving if we don't get real instructional leadership at Silverton High Schooland a raise wouldn't hurt either.
L&C 1.6	Α	This includes providing safe, well built schools for all students in the district.
L&C 1.7	A	I see public education in need of much more real-world learning, independence for children, responsibility by children for the care of the school facilities (yes, they could sweep hallways and clean the cafeteria), edible gardens, community service. What we have is "spaceship school" when we need "community school."
L&C 1.8	Α	That does not mean we waste funds demolishing existing structures to build shiny new schools. Smart stewarding of educational resources entails caring for existing facilities and prioritizing upcycling our schools with an eye to sustainable long-term use.
L&C 1.9		Cannot afford more taxes, seriously! Feel like you're forcing new construction. Evict charter school, replace w/MT students, no building. No new football field, artificial turf more dangerous and also requires maintenance.
L&C 1.10	Α	should have hired a superintendent with fresh blood not from within. (Andy Bellando)
L&C 1.11	Α	Get rid of core learning classes
L&C 1.12		Parents should have educational choices such as homeschooling as well.
L&C 1.13	Α	That elementary school has to be replaced!
L&C 1.14	Α	Better Elementary and Middle Schools. Better Language options at the highschool
L&C 1.15	Α	As long as we keep local control.
L&C 1.16	Α	Remove superintendent Bellando.
L&C 1.17	Α	life long learning is currently important to me. I would like to see classes for retired people.
L&C 1.18	Α	The city should not wait for mandatory preschool and should offer preschool for all children and all
		incomes. Free preschool for city residents with city incentives for those running the facility.

LaC 1.9 C I substitute in Silverton, and currently SFSD students outshine others in the region. I hope to see this continue as a high priority for the community because these students are our future decision makers. An education that not only stresses enrollment in university, but also in technical and vocational programs. This includes having adequate buildings for the students. LaC 1.21 C I ve seen change in education programs that seem to usurp parental responsibility. Although there are some children who may benefit, not all need it. LaC 1.22 C I envision property owners in and out of the city who fully support bond measures that improve our schools

		Ų	
community and its schools.	L&C 2		
			community and its schools.

L&C 2.1	Α	See above. Also, teachers need to ensure classrooms are clean and utilities (i.e, water faucets/heat,
		etc.) are in good repair.
L&C 2.2	Α	The community has no idea about the problems currently going on at Silverton High School. We need a
		huge change in instructional leadership within the administration team.
L&C 2.3	Α	Get students more involved in community life and action during school hours. School needs to be less
		"space ship school" and more a part of the real world.
L&C 2.4	Α	Do a better job of communicating about bond issues
L&C 2.5	Α	see above. Currently there is no trust. Previously new high school was built for approximately \$200 sq
L&C 2.3	_	foot (a not very publicized figure) and at higher cost than Hillsboro new facilities despite a much higher
L&C 2.6	Α.	tax base with Intel and other companies. Get rid of this superintendent
L&C 2.0	Α	I feel the issue of "trust" needs to be addressed by the School Board more so than the City of Silverton.
L&C 2.7	Α	School district's job, not city
L&C 2.8	Α	Remove Bellando.
L&C 2.9	Α	I suggest a change of the guards, if you ever see this future.
L&C 2.10	Α	I would like to see the Police Dept's School Resource officer program expanded so we can promote
		positive relationships with the police and deal with problems when they are small as opposed to a young
		person continuing down the wrong road that could affect them for life, which will affect their family and
100044	_	ultimately the community.
L&C 2.11	С	The community needs to realize that maintaining the schools benefits the community along with the
100040		students. Taking care of the schools models to the kids that we care for their needs.
L&C 2.12	С	We had an experience with a high school exchange student where a high school instructor was trying to
		prosylitize him AWAY from his ancestor's and family religion - telling him Buddhism was a bad thing -
		that is an example of NOT establishing TRUST.
L&C 2.13		Probably not attainable in the next 20 years.
L&C 2.14	С	Trust is a bi-product of transparency. SFSD is way too opaque at this time to garner the support it
		needs.
L&C 2.15	С	more fact check articles in the newspapers where community leaders address "rumors" or
		misperceptions
L&C 2.16	C	This is very important and includes open lines of communication. I wish this goal for Silverton.
L&C 2.17	С	9 , , , ,
		moral integrity? Perhaps due to the high degree of parental involvement? I find I can 'trust' what is being
		taught, and how. However I don't think 'education' is a government responsibility. The smaller, outlying
		schools. Without the bells and whistles and fancy buildings, those kids score consistently higher on
		aptitude tests.
L&C 2.18	C	It is important to support the educational staff in the city. Often they are residents and need to know that
		the community has their back! That spurs strength and confidence.
L&C 2.19	ပ	School Board has to establish that trust
L&C 2.20		City council and Mayor should have shown leadership by supporting school bond issue. This could have
LGG 2.20		been in an official capacity or as thought leaders. The bond failed, in part, because of influential
		community members helping counteract the outright misinformation from opponents.
L&C 2.21	С	This is not true. The people of Silverton do not have a long range view. Thank heavens the high school
LGC 2.21		got built. However the young are not being properly being given priority.
L&C 2.22	С	Top heavy administration w/high salaries
		Top neavy administration winigh salaries
L&C 2.23	٦	We need community members and school board members to come see what happens in the schools.
		We also need them to understand how much different school is from when they were in school.
L&C 2.24	С	however that is not the case at present - we have no faith in the current administration - we've been lied
LQC 2.24		to too many times
L&C 2.25		Trust = fiscal integrity and transparency. Trust = believing that the school district has students best
LQC 2.23		
		interests at heart. Trust = even if we disagree on policy we recognize that the decision process was fair
100000	_	and open.
L&C 2.26	C	That is not the case right now. There are too many "behind closed door deals" happening between our
		school boards and our superintendent.
L&C 2.27		Again - I would love to see this be true, but I personally don't think it's the case.
L&C 2.28	C	People for whatever reason don't have complete trust in the district because they fail to get the facts
	L_	and the district needs to do a better job of sending out its message.

L&C 2.29	С	It's a goal, but the public doesn't seem to have a high level of trust with any institution these days
L&C 2.30	С	SFSD does not act as if it is part of the community.
L&C 2.31	С	This is a strange statement to me as it seems so obvious I wonder what has gone wrong recently, or
		what might be going wrong, in the current K-12 school system. We have less than 5 years in Silverton
		with no children in school. Perhaps we are outside of local disputes.
L&C 2.32		This is a question?
L&C 2.33	Q	I'm fairly new here. Why would there be distrust between the community and schools? I don't quite
1 0 0 0 0 4	_	understand this statement.
L&C 2.34		By "trust", do you mean community "involvement" in education?
L&C 2.35	Q	Why not work together and use the schools facilities?
L&C 3		WE ENVISION a Silverton where we apply our collective knowledge, skills and
		resources to help our schools succeed, by finding funding, improving facilities,
		and developing educational resources that enable students to learn and thrive.
L&C 3.1	Α	Again I think Silverton could greatly benefit by expanding the scope of education beyond high school
		far beyond high school to include focused higher education and training for young adults and even
		career changers with young children of their own. This broader view of education & professional training
		could help diversify the local tax-contributing population. Advanced education in Silverton 2035 could also provide local inspiration to junior high and high school youth regarding how and why education
		matters. More youth might "check in" vs. check out by seeing more tangible choices for their future,
		including chances to return to live in Silverton or similar rural areas - whether in Oregon, the United
		States or even abroad.
L&C 3.2	Α	create funding not find funding. edu is not strictly proportional to funding
L&C 3.3	Α	Our aging buildings must be a number 1 priorityand recognizing the great teachers we have in our
		schools. Putting resources (even if they are out of our pocket) towards this is a must for every citizen of
10001		this community.
L&C 3.4		Again, I would emphasize that we improve, not replace, facilities.
L&C 3.5	Α	We especially need help in improving facilities. The community needs to understand that it takes an
		investment in school facilities to be visionary about education and our community. One cannot succeed without the other.
L&C 3.6	Α	except too much money spent on competive sports
L&C 3.7	Α	Do a better job of communicating about bond issues
L&C 3.8	A	Schools receive enough money to thrive. Operational efficiency is what should be the focus.
L&C 3.9		More emphasis needs to be put into Arts programs rather than sports programs.
L&C 3.10		Parents should have educational choices for their children that includes private or homeschooling
Lao 0.10	٠.	options.
L&C 3.11	Α	Government-assisted funding for spectacular-looking school buildings and technologically-endowed
		devices is not what we need for our children it is love and understanding.
L&C 3.12		Better Library at the highschool would be nice
L&C 3.13	Α	apply for community school grants
L&C 3.14	Α	We need to pay off the existing debt before we create more debt for the community.
L&C 3.15	С	The community needs to realize that maintaining the schools benefits the community along with the
10001		students. Taking care of the schools models to the kids that we care for their needs.
L&C 3.16	С	Sometimes the beauty of the facility is not as important as the actual teaching/learning experiences that
L&C 3.17	С	happen within that facility e.g. the quality of the teachers themselves. YES!
L&C 3.17		Facility improvement is paramount!
L&C 3.18		hmmeducation; learning to be wise may not require pristine, earthquake-proof, weather-controlled
LQC 3.19	C	facilities. Nor lots of resources available. Perhaps perservering thru hardship would help us all grow in
		good character.
L&C 3.20	С	Although parents' support is mandatory in the schools, the community's foundation is fundamental to
		success.

L&C 3.21	C	Unfortunately this board and superintendent chooses not to use existing facilities and does not take
		care of them under the guise of 'not sufficiently funded' then tried to pass two bonds to build a new
		school rather than asking for funds to fix what we have.
L&C 3.22	С	Not a primary responsibility of the city
L&C 3.23	С	Do we really? We try but those with the biggest mouths and no children seem to ruin it for others.
		be we really: We try but those with the biggest mouths and no children seem to full it for others.
L&C 3.24		Finding funding seems to mean raising taxes here in Silverton.
L&C 3.25	С	Funding schools is important but, the tax and bond revenue generated from citizens can only be divided
		so many times. We do have other services that need to be addressed.
L&C 3.26	С	There should be enough funding already, given how high property taxes are here.
L&C 3.27	С	This won't happen until people realize the more they put off paying for buildings, the more it would
		cause in the long run.
L&C 3.28	C	Agree, but I think the school district needs to be a better steward of the funding, to fund those areas
		crucial to the success of the students. Sometimes, it seems the upper staff is too heavy.
L&C 3.29		Again, as long as they are not expecting additional monies from its tax payers.
L&C 3.30		Seriously?
L&C 3.31	Q	Find funding??? Oh, you mean raise property taxes?
L&C 4		WE ENVISION a Silverton where schools take full advantage of local resources,
		including agriculture, arts and culture, while utilizing 21st century learning tools
		to advance student learning.
L&C 4.1	Α	The FFA program and agriculture need to continue as a prominent program.
L&C 4.2	A	
		Develop school gardens and nutrition education programs at every Silverton public school. Bring all schools(including the rural schools) up to 21st century standards even if it means combining
L&C 4.3	A	schools.
L&C 4.4	Α	
L&C 4.4	^	Local resources are done but I would rather schools use the best resources, even if they are not local.
L&C 4.5	Α	Taking advantage of active and retired entrepreneurs and artists is another great idea coupled with
		current advances in means, methods, and tools.
L&C 4.6	Α	Don't overlook out of community resources for learning opportunities.
L&C 4.7	Α	BETTER COMPUTERS
L&C 4.8	Α	
		Let's work with all of these farms to feed healthy meals to our students and children. We shouldn't be
		preaching health and dispensing garbage. Having community gardens that the schools can grow and
		feed the students with would be awesome. Check out GRuB in Olympia,WA.
L&C 4.9	A	The need to prepare students for life after high school is critical. Whether its geared towards college, a
		vocational/technical school or life skills. I don't believe everyone is destined or needs to go to college to
		be successful, but they do need to have skills.
L&C 4.10		21st century tools can be a distraction from learning how to think
L&C 4.11	С	The more that the community is involved in the education if the kids, the better the connection between
		the kids and community will be. The better the connection, the more effective the education will be.
L&C 4.12	С	Some art and culture can go in the garbage can and should not be shown to shildren under 40
L&C 4.12		Some art and culture can go in the garbage can and should not be shown to children under 18.
		Experiential education is the best way for the students to learn and retain knowledge.
L&C 4.14		Please tell me that tax money is not paying for this shit.
L&C 4.15	С	In some cases we need to rely on 19th and 20th century tools that are being forgotten and left behind
100440		for newer shinier ones. The schools and community need to work together to support positive and collaborative relationships
L&C 4.16	C	The schools and community need to work together to support positive and collaborative relationships that open opportunities to support and not hinder the growth and development of the fine and
		performing arts
L&C 4.17	C	I agree with this as long as funding is provided to do so.
L&C 4.17		Agriculture, learning to the work, and to use our natural resources seems an appropriate goal for many
L&C 4.16	U	students in our community. I deem the Arts to be a pleasure; introduction to them is fun + nice 'gravy'
		but definately not a local government responsibility.
L&C 4.19	С	We live in a very diverse area that lends itself to many learning opportunities that are not available
	_	elsewhere.

L&C 4.20	С	Our schools are comprised of devoted teachers who work hard for our children by being involved in all of the above.
L&C 4.21	C	Funding schools is important but, the tax and bond revenue generated from citizens can only be divided
LQC 4.21	•	so many times. We do have other services that need to be addressed.
L&C 4.22	С	I believe that students need to see it to be it. Without spending any time on a college campus in High
		School I assumed it was much the same as remedial school and felt it wasn't for me. If I had only
		known my direction in life might have been quite different.
L&C 4.23	С	As long as the schools aren't trying to acquire these resources. We must be leery of that.
L&C 5		WE ENVISION a Silverton where schools promote career and technology skills
		that support development of new jobs in the community – and they fill those
		jobs with local graduates.
L&C 5.1	Α	Silverton schools would benefit form offering courses which support students in the music technology,
		recording and producing fields. At this time, the only offerings are performance based. Students who
L&C 5.2	Α	are not skilled on an instrument have limited music options. Grow the vocational technology curriculum!
L&C 5.3		Bring back industrial arts classes and home economics.
L&C 5.4	$\frac{\Delta}{A}$	More use of the CTE opportunities and work with community business.
L&C 5.5		
L&C 5.5 L&C 5.6	<u>A</u>	Local graduates should not receive hiring preference. We can't always hire our own school graduates. We will need new blood to welcome in new ideas,
L&C 3.6	A	perspectives, talents and skills. We need to make sure that whatever we do development is just as
		welcoming to people outside our community as in it.
L&C 5.7	Α	
		Not every child needs to go to a 4 year college-nor can they afford it. I am in favor of career skills being
		taught in HS and two year community colleges. We need to create a living wage for these students too.
L&C 5.8	Α	I don't necessarily want to limit prospects to local.
L&C 5.9	С	A Humanities and Liberal Arts focus will better prepare students for any and all career paths.
L&C 5.10	С	I changed from Agree to Disagree, especially when reflecting on 2035the Future Silverton. I have
		trouble with the last phrase - filling jobs with local graduates should that "graduate" stop at high school.
		Nationwide, high school level of critical thinking, "learning to learn" and even practical, what-can-you-
		make-produce-do, skills are not enough to fill, but more importantly *create* jobs that build and sustain
		prosperous economies. As wonderful and charming as "local" community is, there is a danger to being too insular, nurturing a sense of entitlement in youth, and creating a suspicion of outside influences. I
		hope Silverton continues to be a charming small town in 2035. But for it to prosper the community also
		needs a big heart and broad collective mind.
L&C 5.11	С	A good reason to return to Silverton directly from college does not exist. The community needs to find a
		place for recent graduates to thrive in order to keep the community thriving
L&C 5.12	С	I quit.
L&C 5.13	С	NEW jobs? We don't (didn't) even seem able to hire within the community for existing ones; library and
		local newspaper rather to hire from the larger cities, those with advanced degrees. Surely the High
		School journalism class could have done a superior job reporting local events than the Apple Peal did.
L&C 5.14	С	Yes, but this means a community willing to grow sufficiently to allow these jobs to develop.
L&C 5.15		Silverton does not need to become a tech hub.
L&C 5.16		I'm somewhat offended by this statement. It sounds like someone thinks the purpose of schools is to
		provide labor for local businesses. Schools should focus on ensuring kids have an education that
		enables them to succeed regardless of where they choose to live.
L&C 5.17	С	good plan. Let hope it happens.
L&C 5.18	С	I don't see the need to fill local jobs with local graduates.
L&C 5.19		Promoting (non-drug industry) technology skills is a miraculous idea currently, however, new jobs are
		often filled by those outside the community (note the Salem-Silverton commuter traffic).
L&C 5.20	С	Local graduates may want to go elsewhere. The concept of creating jobs for our own progeny is
100504		Worrisome.
L&C 5.21	C	To the extent this suggests a vocational focus for k-12 education, I think a hope that local high school graduates will be prepared to fill career track positions is unrealistic given that the vast majority of
		careers require at least some postsecondary education.
L&C 5.22	С	We have gone backwards on this priority.
		THE TIETO GOTTO DECINITION OF THIS PRIORITY.

L&C 5.23	С	Very important goal. The jobs we train our kids for must be viable into the future, informed by the science on our changing climate.
L&C 5.24	С	See #4 above, many students will want to get into the work force. Question is are they ready to be a good employee, do they understand their responsibilities. Help them learn to be a productive member of the community and not one looking for gov;t subsidies and handouts. They can be successful if they are willing to work hard, take responsibility for their actions and be accountable.
L&C 5.25	Q	new jobs or more jobs?
L&C 5.26	Q	What technological skills are needed for a town full of second hand stores and coffee shops?
L&C 6		WE ENVISION a Silverton where multiple educational and vocational pathways
		ensure that all Silverton students achieve optimal success, regardless of their
		chosen path.
L&C 6.1	Α	Multiple educational and vocational pathways are a good idea, but these need to be carefully evaluated
		for cost effectiveness. We cannot kid ourselves that we can create an educational system that is perfect
		for everyone. We will never find that much money.
L&C 6.2	A	Kindly concentrate any extra funds and ideas to figuring out how to reduce our water bills so we can
L&C 6.3	Α	afford to live and send our children to school here. If this suggests different trackse.g. college vs. agricultural, I would be hesitant to allow/require
-65 0.5	~	students to choose a track and limit their options at an early point in their education. I think a
		generalized high school curriculum can serve everyone's needs successfully.
L&C 6.4	Α	More life skills instruction, teach them how to make it in life, not everyone should go to college, and for
		most of them, they do not end up with a career they can make a living in after spending a lot of money
L&C 6.5	Α	on college. Should take a look at the grading policies and the graduation requirements as they are too strenuous for
LGC 0.5	4	a lot of kids.
L&C 6.6	С	While I agree in principle, especially the last phrase "regardless of their chosen path," "ensure" and "all
		Silverton students" smacks of entitlement. Therefore I must disagree. I can see Silverton spearheading partnerships or alliances, etc. with other cities, school districts and/or universities, including vocational or certificate programs at community colleges, to open more doors for all WILLING and MOTIVATED Silverton students. But I disagree the Silverton community "ensures" "all" local students "achieve optimal success." Students must participate and be accountable for their ultimate achievements. It is reasonable to me that a healthy community can foster, nature, support those students actively pursuing growth, including removing barriers whether economic, social or racial. Again I'm interpreting 7-12 grade levels are the focus of the statement)
L&C 6.7	С	well we can try. pretty lofty.
L&C 6.8	С	We currently DO NOT have educational and vocational pathways at the high school. As an educator, I completely agree that this is needed. The current administration at the high school has opposed this idea. Good luck convincing them to change.
L&C 6.9	С	Not everyone is college bound and that needs to be recognized.
L&C 6.10	С	Impossible; let's not cater to those that do not care to learn, or be in school. YES, to educational and vocational pathways. But we are NOT government -funded babysitters to reinforce 'optimal success' of every student who doesn't want to be there. This encourages an entitlement mindset. Let's not require yet more of our hard-working teachers to cater to every whim. They are already spread too thin, trying to incorporate the existing plethora of state government requirements. What does this question have to do with local government, by the way? Kindly concentrate any extra funds and ideas to figuring out how to reduce our water bills so we can afford to live and send our children to school here.
L&C 6.11	С	Again, vocational training should not be a lost option.
L&C 6.12	С	wood shop electronics technology
L&C 6.13	С	Technical education needs more emphasis.
L&C 6.14		Not a primary responsibility of the city
L&C 6.15	С	Nothing can ensure that, we have no control over the effort of the individuals themselves put forth.
L&C 6.16	С	And regardless where they choose to live.
L&C 6.17	С	Again with the limited resources they try.
L&C 6.18	С	I have little faith that our school administration, state, and federal laws allow enough flexibility to meet
		this goal. nice dream though.

·		
L&C 6.19	С	We need more opportunities for kids. They're all in a similar track but if we could offer more vocational
		options that would be of great help.
L&C 6.20	С	I assume you refer to education/employment "paths." S Supporting kids into a pot-growing path not a
10000		top priority.
L&C 6.21		Regardless of path? I can think of quite a few paths we shouldn't support.
L&C 6.22	С	Yes, students have many options and choices. They need to understand individual responsibility and
1 0 0 0 00		accountability. There are many ways to be successful.
L&C 6.23	Q	What criteria does a student get to use in selecting their educational/vocational path? Maybe concentrate on personal communication and finance, and internships?
L&C 6.24	Q	
L&C 0.24	<u> </u>	What about the meth dealer path? The dependent on welfare path?
		Optional: What is one action or strategy to help achieve this vision?
L&C 7.1	Α	Community events highlighting teacher and student achievements.
L&C 7.2	A	Within five years have a school plan that speaks to the common good. Centralize the schools so that
		we use fewer buildings and have a plan to maintain and or replace outdated structures.
L&C 7.3	Α	Partnership with Oregon Garden.
L&C 7.4	A	Bring a satellite college to Silverton - great use of Eugene Field building. I imagine a certification-
100==		driven set of offering that feed directly into local jobs.
L&C 7.5	Α	Student members on boards and committees and organizations.
L&C 7.6	A	I believe it's important to involve local citizens as mentors, volunteers, etc. Tons of expertise and
100==		wisdom here waiting to be utilized.
L&C 7.7	Α	Keep a strong arts program and offer diverse hands-on vocational courses.
L&C 7.8	Α	Change the paradigm of all students are bound for university to multiple tracks leading to various
		types of jobs, and help the kids all along this process.
L&C 7.9	A	Good and open communication between teachers and administration and between community,
100740		teachers and administration with the goal of constant improvement.
L&C 7.10	Α	Develop school gardens and nutrition education programs at every SFSD school
L&C 7.11	A	Silverton should select the most fitting standards for sustainable and resilient communities and certify
		as a sustainable and resilient community within 5 years. • Develop school gardens and nutrition
L&C 7.12		education programs at every Silverton public school.
		Develop school gardens and nutrition education programs at every Silverton public school
L&C 7.13		Pass school bond
L&C 7.14	Α	offer more full day elective and vocational classes at the high school while alleviating class sizes
		across the board (around 20:1). Few learn and retain anything of great value in an large arena style
		class. How many were around when you learned some of the most beneficial and important lessons of
L&C 7.15	Α	your life? The main way that the city can assist the development of quality schools is to lead in any efforts
Lac 7.13	7	around funding. Boldly endorse bonds!
L&C 7.16	Α	SFSD needs to completely overhaul it's online presence. To make staff most efficient, a community
		member should be able to find almost everything about the district, from policies to schedules to
		finances, online.
L&C 7.17	Α	Pass a bond to build a new middle school.
L&C 7.18	Α	transparency from the top down as regards administration within the school district
L&C 7.19	Α	For the community to help elementary students by supporting an improved facility.
L&C 7.20	A	
		New instructional leadership at the high school. I.e., remove the current administration (except Jodi
		Dresher) and replace them with real administrators who know how to be instructional leaders.
L&C 7.21	Α	Keep lines of communication open between schools and community (which includes making sure the
		right leaders are in the schools).
L&C 7.22	Α	Silverton should select the most fitting standards for sustainable and resilient communities and certify
		as a sustainable and resilient community within 5 years.
L&C 7.23	Α	One critical thing to emphasize are policies which act to encourage and incentivize locally-owned
		businesses, as opposed to chain stores, big-box stores, and other strip-mall businesses which add
		little to the prosperity of our community and choke out small-scale local startups.
L&C 7.24	Α	Replicate the K-8 community school model around town, since those seem to have fewer issues,
		more family involvement, and higher academic achievementeven if the cost of additional facilities is
		higher.

L&C 7.25	Α	mentoring programs survey of people to see what skills and experiences they have to share
L&C 7.26	Α	Enrich education opportunities in technology, math and science for all grades k-12.
L&C 7.27	Α	Schools need to be held accountable for their spending to ensure funds get to the students and their learning.
L&C 7.28	Α	City/School District joint effort on safe route to schools
L&C 7.29	Α	more work with local businesses developing student work experience to learn more about different
		careers and how to work
L&C 7.30	Α	Evict charter school from old high school so M.T. students can instead use that space instead of
	_	modular buildings, remodeling, etc.
L&C 7.31	Α	Update the facilities for our kids. We need to have better communication on the need for the additional funding.
L&C 7.32	Α	Rehab the school district building on N James and move Eugene Field students into that building.
		Then move the school district to Water Street. Kids are NOT more important than our historic
		resources (once they are gone, they are gone FOREVER)!
L&C 7.33	Α	Absolute honesty from the school and city leaders. Repurpose rather than always replace.
L&C 7.34	Α	Reach inside and OUTSIDE our area businesses to give our students a glimpse of what each of those
		businesses do.
L&C 7.35	Α	Teaching through cooperative programs with local industry and higher education institutions.
L&C 7.36	Α	Get a damn bond passed. Quit cutting arts & music and making huge hurdles for kids to be involved in
		music (not to mention the higher test scores when kids have music education)
L&C 7.37	Α	Build new schools for all the grades, not have these old run down schools that are neither adequate
100 = 55	_	nor tech ready.
L&C 7.38	<i>A</i>	Encourage community envolvement and work experience opportunities within the community. Hands
		on experiences between community members and the kids. Make it more personal for everyone.
-&C 7.39	Α	One way to free up funding and remove overlap or redundancy would be to either fold the outlying
L&C 1.39	~	schools into the larger schools or have them take on chart status. They represent a drain on
		resources because of the need for administration at each small school, the need for bussing, food
		programs etc.
L&C 7.40	Α	Ensure we have a fair and open election of the school board with transparency.
L&C 7.41	Α	Listen to each student.
L&C 7.42	Α	Sales or property tax.
L&C 7.43	Α	I would like to see more fundraisers for the schools
L&C 7.44	Α	We need to build new schools, not put up temporary classrooms
L&C 7.45	Α	Improve the infrastructure of our school district. The physical condition of our schools with the
		exception of the high school is an embarrassment.
L&C 7.46	Α	make the schools work for students and not centered on adult work days!
L&C 7.47	Α	Identify education ambassadors at every business in mid Valley and develop learning partnerships
L&C 7.48	Α	strong and diverse career counseling beginning early in high school to help students learn about all
L&C 7.40		their options before focusing on any career path in particular.
L&C 7.49	Α	Student input to the schools
&C 7.50	Α	Better Facilities
-&C 7.51	A	Not ever child should be geared towards college. We need to improve the Vocational Technical side
	· •	of education. I make more money in a year then a tenured high school teacher does and I drive a
		Dump truck for a local paving co. Our equipment operators make WAY more then I do.
&C 7.52	Α	Local tax credits used as school vouchers for those who choose to home school their children.
-&C 7.53	Α	
		Schools could partner with local businesses and provided job training opportunities. High school
		students could try "working" in an industry that interest them before having to commit to it before
		leaving school. The program would have criteria including hours and an employee evaluation o earn
		high school credit. Local businesses could utilize and train emerging talent, students would be more invested in their community and the partnership could benefit both parties.
		invested in their community and the parthership could benefit both parties.
L&C 7.54	Α	Support arts in schools. Lack of arts stifles the students.

L&C 7.55	Α	The community needs to work with the school district and the school board to find funding for our schools. Our schools should be our shining stars - not a broken down embarrassment. It is unfair to ignore children while they are in grades K - 8, then provide them with a building that is in decent shape
		ignore children while they are in grades K - 8, then provide them with a building that is in decent shape only as high schoolers. We need to take care of our children and our teachers - or we will lose both.
		Bigger school districts pay better. Other communities are far cheaper to live in (especially if you're on
		a teacher salary). There are more educational options and community resources in bigger towns. If we
		do not find a way to compete by prioritizing our schools, teachers, and students, we will lose them all.
L&C 7.56	Α	moving children out of Eugene Field is first priority. Not everyone is destined for college. Encourage
L&C 7.57	Α.	manual arts careers, etc.
L&C 7.57		Work with area businesses and farms to give real world experience with trades and agriculture. The school district needs to do a better job of educating the public. In order for our students to
L&C 7.30	A	achieve, the district needs to hire more high school counselors.
L&C 7.59	Α	More adult volunteers in the schools.
L&C 7.60	Α	We need to encourage the school district to build a unified middle school that has the resources to
		prepare all the Silverton region's students with enhanced math and science skills.
L&C 7.61		Administrators must dialogue with larger community, not just students' families, to rebuild trust.
L&C 7.62	С	I've included several actions in my examples, particularly in terms of advanced higher education. In
		terms of strategy, partnership & linking with outside educational resources to supplement, expand and boost what Silverton currently offers.
L&C 7.63	С	Money
L&C 7.64	С	More parent involvement and teacher accountability. I'm sure neither of sounds good to some.
L&C 7.65	С	My strong agreement is that which will include ALL students, regardless of cultural background and
		ethnicity. Few faces of color find themselves in our photos included in the local news (papers)
L&C 7.66	С	
L&C 7.67		strong community partnershipsopen communication Bringing the board, staff, administration, teachers, students, and community members together. We
Lao 7.07		have to be a team. Not a "school grouping" or a "parent group".
L&C 7.68	С	This is not local government responsibility.
L&C 7.69	C	Teach students what they want to learn.
L&C 7.70	С	The Silverton Schools focus is on sports. Sports serves a fraction of the children in this town. Perhaps
L&C 7.71	С	partnering with the community can help break this bubble of "sports is everything". Schools facilities except the high school are not now at 21st century standards. Rural schools are out
L&C 7.71	C	of date.
L&C 7.72	С	Research shows that elementary school age students need physical exercise and creative arts to
		support optimal brain development. This is an area that has been reduced in recent years
L&C 7.73	С	City officials should show leadership on adequately funding good schools even if it is not popular. I expect them to focus on the long term future, not the next election.
L&C 7.74	С	Better use of school district funds to make education and working in education more beneficial to
	,	students, teachers and parents.
L&C 7.75		Communication considering correct public information
L&C 7.76	С	Somehow increasing the awareness of what is great in schools, what students are doing with their
		education in the vast variety of options they have. Somehow it seems that so much negative attention comes to costs around construction rather than the values of a well rounded, positive education in
		safe loving schools.
L&C 7.77	С	We need knew blood in the district office. It is very inbred and unable to move forward.
L&C 7.78	С	Individual responsibility must be incorporated in education from the earliest grades. Taxpayers and
		educators have a responsibility to provide education AND students have a responsibility to study and
1 0 0 7 70	_	achieve.
L&C 7.79	C	Our students need new schools. The current staff at the district office and he will never get our students ready for this. Andy and all
L&C 7.80	С	The current staff at the district office and hs will never get our students ready for this. Andy and all adim at the hs need to go! The good old boy club isn't working!!
L&C 7.81	С	All I see here are a bunch of meaningless "duh" statements.
L&C 7.82		Resolve the nagging facilities issue. Portables are not an environment that promotes positive self
		image (it raises the question are students important).
L&C 7.83	ပ	To have students be more sucessful in school and for students to learn more and pay more attention
		in school

L&C 7.84	Q	For some reason administration has not gained trust of the public (I don't understand why not, it's just what I hear). What new, welcoming, warming, open approaches do they need to take to let the public
		know we are all in this together. How can they change what the "system" is now to show more willingness to opinions/unity/change/a fluid administration?
L&C 7.85	Α	Silverton should select the most fitting standards for sustainable and resilient communities and certify as a sustainable and resilient community within 5 years.
L&C 7.86	Α	Develop school gardens and nutrition education programs at every Silverton public school.
L&C 8		Optional: Do you have any new ideas or additional comments you would like to
		share?
L&C 8.1	Α	I would like to see a Silverton that embraces students with varying disabilities and works
L&C 8.2	Α.	collaboratively to find meaningful employment and volunteer opportunities in town. Statement #2: SFSD Board members should rotate/attend parent group meetings. Partner with large
L&C 8.2	Α	local employers to create internships, training programs, and mentor programs.
L&C 8.3	Α	Target all of the school parent committees via their FB pages, meetings
L&C 8.4	A	There is no way this town can say education is a priority as long as students have to walk around a
L&C 0.4		condemned building every day
L&C 8.5	Α	Teachers need to have time to plan well and implement those plans. In these CCSS times, they are
		ridiculously overloaded and being burnt out quickly.
L&C 8.6	Α	Develop school gardens and nutrition education programs at every Silverton public school.
L&C 8.7	Α	Aggressively pursue absent students. They must be in school to learn anything.
L&C 8.8	Α	Would like to see 1 and 6 combined. This would show that the community works with the schools in a
		trusting way and that the students receive a quality education
L&C 8.9	Α	Computer science, science and engineering should be taught starting early (1st grade). Also,
		communication and team collaboration skills are increasingly necessary in the computer science field
	_	as more companies embrace Agile Methodology.
L&C 8.10	Α	summer work experience in local government, businesses or with individuals, which would count as vocational and educational credits, under school administration with community cooperation.
L&C 8.11	Α	Build new schools
L&C 8.12	Α	PERS is unsustainable and must be reformed. Be sure that all school board meetings are videoed for
		public viewing especially around election time.
L&C 8.13	Α	There are some great people in this town who can help support vocational success of students.
100044		Reach out to the community for job shadows.
L&C 8.14		Funding of schools needs to be diversified
L&C 8.15		Lets close Kennedy and fold it into Silverton too. We can use Kennedy as the middle school.
L&C 8.16	Α	Our smaller k-8 schools are expensive to run compared to larger in town schools. Schools like
		Evergreen need to be closed and students incorporated into surrounding schools. By having fewer schools, resources can be better utilized.
L&C 8.17	Α	Go back to regular grading, get rid of the so called EA projects at the hs. Take a bigger look at kids
LGC 0.17		emotional support.
L&C 8.18	Α	Need to equally support this effort in community schools outside of downtown.
L&C 8.19		We need the school district to work directly with local employers, SEDCOR, and CCC to create on the
		job vocational educational opportunities as an alternative for high school students not planning to
		attend college. College is not for everyone and students that are not going to college should graduate
		with vocational training.
L&C 8.20	Α	Green school facilities and policies are needed. There are many high quality tools available, such as
		the EPA's Tools for Schools, to ensure that Silverton's kids are breathing clean air while in the
100001		classroom.
L&C 8.21	C	See question 7
L&C 8.22		No.
L&C 8.23	С	Those who don't believe we need to fund education should be invited to view/help out with the
L&C 8.24	С	massive school moving process happening this summer.
L&C 8.24	U	Previous generations paved the path for us, we have to for the future generations.

L&C 8.25	C	Most of the community is enthusiastic about better schools. As elected officials our council can push
LGO 0.20		right up against whatever legal line exists as they refute the lies and misinformation that people like
		Gene Pfiefer spread. Get city attorney to coach council as to just how far they can go publicly in
		shutting down such opposition to bonds or other funding measures that would allow improvement of
		facilities and programs in our schools.
L&C 8.26	С	THANK YOU for allowing input.
L&C 8.27	С	I don't believe that finding funding to support schools necessarily ensures success. Schools are well
		funded and already receive the lion's share of taxpayer dollars. It need not be a bottomless pit.
		Moreover, I do not believe schools and funding for schools are a City of Silverton issue. This focus
1 0 0 0 00		area seemed to ignore lifelong learning concepts and focused only on youth.
L&C 8.28	С	We have high performing schools. Many families move here because of them. Many parents transfer
		their students here each year because of our great schools. Our small level of commerce and industry
		means the bulk of school facility improvements falls on residential tax payers. The education of our
		community would be well-served by an expanded commercial and industrial based.
L&C 8.29	С	Education is not only about the schools. Education can happen at many venues and at every age.
L&C 8.30	С	
		Seriously, I can't afford to pay more income or property taxes, I'm retired and not wealthy.
L&C 8.31	С	I appreciated the city and local community supporting our schools and students but, until the schools
L&C 8.32	С	can efficiently manage themselves they should have limited support.
		Educated population stimulates economic growth
L&C 8.33	С	It's not about giving the teachers and staff MORE to do, or blaming them for the "behindness" of some
		students, it's keeping class sizes low, hiring excellent teachers, and giving them schools that are current in technology and current in environment.
L&C 8.34	С	It is not an idea, but I do want to say that I am so thankful and inspired by so many people in our
LGC 0.34		schools in all positions/roles/ and buildings. I believe that there is a strong desire and commitment to
		provide the very best for the students/families / and community.
L&C 8.35	С	Help each student to realize and improve their God-given talent(s).
L&C 8.36	С	These are all nice ideas, but none of them are true.
L&C 8.37	С	Not only is education a right, it is a privilege.
L&C 8.38	С	I would like to see a woman on the school board. It is 2015. There is no reason why we are still being
		led by a pack of men. Where is the diversity of interests, ideas, perspectives? In order to make the
		schools better, we need to take them out of the 'political arena'. Schools are not an opportunity for
		someone in the community to curry favor with voters in future elections. Schools that are well cared for
		(building and the people in it) will create a community that thrives. We only do a disservice to
		ourselves by devaluing education.
L&C 8.39	С	More fairs such rollercoaster and some things for older and younger kids and had to be near silverton
10001		if it can be
L&C 8.40	Q	Eugene Field was partially condemned when I attended it 45 years ago. Why is it still being used and
		what's being done about replacing it? Besides just talking about it, of course.

		WE ENVISION a Silverton that meets the basic needs of all of its residents
		through quality jobs, affordable housing, accessible health care, and community
C&T 1		safety.
		Within the last year, I've become more concerned about safety from a public infrastructure point of view, specially the sewer system and water management and potential negative impacts on community wide health and wellness. Second to that type of safety concern, emergency preparedness has come to the forefront of my mind. 1) how stable IS the sewer and water management in a subduction zone earthQuake? 2) After such an earthQuake, how can the city support itself for 1-2 weeks assuming no passable roads to Salem and/or I-5? What are the high level plans? Where do we go should our homes or our neighborhoods be unsafe or uninhabitable? 3) Where are community-based reserves of water and/or food? While individuals should do this, what is the local education campaign and/or local incentives to get more households to do this? ORwhat other backup solutions might be put in place for basic water, food and medical attention community wide (defined as within walking distance of downtown??) for 3 days without outside transport? 5-7 days? 2 weeks? 4a) In the field of disaster preparedness and recovery planning, what do experts recommend for a Silverton-sized community? 4b) Is there any type of "broiler plate" that might be adopted and then systemically customized to Silverton as resources, data/insight and expertise grow? 5) Post disaster, what are community plans on how to assemble and manage able-bodied people to help neighboring communities should 1) Silverton town be relatively lightly impacted or 2) after Silverton area emergency needs have been met? 6) What is, or are, the main emergency communication channel(s) for Silverton and how do we find those channels during the aftermath of a disaster? 7a) For how many other disasters is Silverton at risk? e.g. flood? severe wind storm/weather? building explosion (e.g. a manufacturing facility or warehouse with chemicals)? 7b) What is the approximate probability of each disaster? e.g. 9.0+ earthQuake vs. 1996-level of flooding or worse? plane crash vs. bomb explosion, whethe
C&T 1.1 C&T 1.2	Q C	Jobs and safety priority not the other items
C&T 1.3		We want working citizens and less using the systems
001 110		affordable housing is scarce in town, especially if you don't have or want to have assistance from the
C&T 1.4	С	government
00745		A "welcoming committee" to help new comers understand and access the services we currently offer. I am
C&T 1.5 C&T 1.6	C	still surprised by how many folks know little about SACA and other service programs. Housing is not affordable.
C&1 1.0	U	Use planning, infrastructure, and amenities to make walking and biking safe, healthy, and enjoyable. Our
C&T 1.7	A	city should be safe enough for children to walk and bike to in-town schools.
		I appreciate this comment box. Selfishly, I'd like to underscore the word RESIDENTS. There are plenty of
C&T 1.8	Α	houses for sale here. It's not lack of housing which makes it hard to afford to live here.
C&T 1.9	С	Right now, housing is not as affordable as other communities of comparable size.
C&T 1.10	A	Affordable housing, jobs, healthcare should not be an agenda item for city planners/influencers. Leave these for the free market.
341 1.10		Silverton is a bedroom community to Salem and Portland and it is highly realistic that it will meet the basic
		needs of residents through Quality jobs. Police services must be maintained. Hopefully the hospital sale
		with continue to offer accessable health care. Sidewalks from the reservoir in S. Silverton to town would
007444		significantly improve community safety as many children and bike riders are at risk in the south end of
C&T 1.11	Α	town.
C&T 1.12	A	Assisting living or long-care facilities that care about the emotional status of their customers rather than a medical prolongement of life
C&T 1.12	C	Community safety is the only area primarily the responsibility of the city
C&T 1.14	C	Dream on
		Recognize that not all "Quality jobs " will be in Silverton. Some will be in neighboring communities
C&T 1.15	С	therefore adeQuate, effective public transit is essential.
C&T 1.16	С	A heavy goal.
		Of course this is something that would be nice as long as the city, county, or state government doesn't
C&T 1.17	Α	step in to create these things. Let the citizens do it as they individually desire.
C&T 1.18	С	This Question groups many different subjects.

		Code violations involving safety are often not addressed by city staff unless one submits a complaint about
		it (i.e., the police will drive by multiple times without seeing improperly parked vehicles; no code
		enforcement when trees and bushes in meridian strips block visibility for drivers trying to back out of
		driveways (can't see either direction due to blocked views). This pits neighbor against neighbor when
C&T 1.19	C	forcing complaints to take action.
C&T 1.20		Basic needs are relative
00.1 1.20		We do need affordable housing, but not just housing in the "poor" parts. All parts of Silverton need to be
		affordable. Having a 3 bd house on the south side of town that is over \$250k is ridiculous. Housing needs
C&T 1.21	A	to come down a bit.
C&T 1.22	С	Lower income & senior residents struggle to find affordable housing or keep living in homes they own.
		My family has lived in silverton for 6 generations now. We have our family farm. Others come from out of
		the area and want to move to a small community but then they do not like the 'dust' farming creates and
		the 'traffic' the tractors and eQuipent cause in the summer time. They complain to us about how we
		opperate and we are just trying to survive like we always have. People that move out around us are from
		towns. Its hard to please everyone as more and more people try to push the farms out. We use chemicals
		to help keep the labor down because we cannot find enough labor to fill all our positions and with the cost
		of minimum wage now we want the least amount of labor possible also to help keep the cost down. Our
		customers want low cost products but it gets hard to be competitive given the factors. I have friends that
		grew up in silverton but because housing prices have gone up so much they cannot afford to raise their
		family here like they would love to do. We have our farm but the people in our town are not the ones
		working here on our farm. We have a really hard time finding people that want to do the jobs (weeding in the fields, running our seed cleaning opperation and so forth) This is just from observation. We try to offer
		jobs but we cannot find anyone to fill them anymore. The people we do get that come in complain the work
		is 'too hard or difficult' (filling seed bags or pulling weeds) and they work a week then dont show up again
C&T 1.23	С	and we start all over looking for more labor.
C&T 1.23	C	Affordable housing is a big deal but I don't want to be a socialist.
C&T 1.24	A	There is too much in this vision for a blanket answer.
C&T 1.25	C	
C&1 1.20	C	Who is a "resident?" Homeless people? indignets? Ag workers? Does "affordable housing" mean government subsidy or that members of the community and developers
C&T 1.27	Q	will not price gouge for profits? Not crazy about government housing.
		This would reQuire a federally subsidized construction of suitable homes, homes that the families could
C&T 1.28	A	use work and assisting with certain aspect of the home in lieu of cash as a down-payment.
C&T 1.29	С	This would reQuire more government intervention than I can support.
		Quality jobs do not include a marijuana factory, I feel this is a disservice to our community and our
C&T 1.30	С	children. Yes it is legal, but we do not need it in our community.
C&T 1.31	Α	Address one of these needs each Quarter with a community meeting to discuss
C&T 1.32	С	Not enough low income housing
C&T 1.33	С	Affordable housing seems to be a top priority in this area as both affordable homes and rentals are scarce.
C&T 1.34	С	I would like to see this.
		I see this as a great need in our police force. Our policemen are often surly and unapproachable. I wish
	_	we could ask them to be more personable and welcoming. I am not a bad person, and yet I always feel
C&T 1.35		like a criminal when trying to have a conversation with a person from the Silverton PD.
C&T 1.36	С	In order to keep a well-rounded community we need to do this.
		The homeless? Many have no means of paying rent and even if they did have no credit references that
C&T 1.37	С	are acceptable, most have been into drugs or alcohol and have a rap sheet, surely something can be done
CQ1 1.31		so they don't have to live under a bridge
		This involves individual responsibility supported by community support when needed. Being a small town,
C&T 1.38	С	jobs will vary in pay. If the community supports business, better jobs could be in our future.
		Community/Public Safety is important. Silverton has excellent livability and prompt corrective action on
C&T 1.39	С	issues that effect or impact those Qualities.
		WE ENVISION a Silverton that utilizes new tools and local resources to ensure
C&T 2		that basic community needs are always addressed.
C&T 2.1	С	don't understand meaning of new tools
·· <u>-</u> ··		and a second control of the second control o

C&T 2.2	_	Vegue now tools? What does that man?
C&1 2.2	Q	vague new tools? What does that mean? Though it depends on how you look at it. We have abundant natural resources. Especially water. I've
		spoken to those in public works who assured me that with both the AbiQua and Silver Creek sources,
C&T 2.3	С	there is no lack. Our NEEDS are abundantly met.
C&T 2.4	С	I'm not convinced we need to use local resources or new "tools" to achieve this goal.
C&T 2.5	С	Silverton seems to be on the lookout for new ways to make this happen.
C&T 2.6	С	Local resources? Sounds like city government is captive to local businesses amid industry.
C&T 2.7	С	Somehow I feel there is the citizens and then there is city hall. Do you really care?
		I don't understand 'new tools'. What does this imply? What's wrong with the 'old\current tools' whatever
C&T 2.8	Q	they may be?
C&T 2.9	Α	Define basic
C&T 2.10	Α	Repurpose vacant buildings and storefronts
C&T 2.11	С	Water rates keep increasing.
C&T 2.12	С	I'm not clear on the meaning of this one, sorry.
C&T 2.13	Α	Can you say pay as you go infrastructure
C&T 2.14	С	Silverton has an extraordinary opportunity with social media.
C&T 2.15	Α	Need a definition for "basic community needs."
C&T 2.16	Q	This sounds more like a slogan than a plan. What do you mean?
		Depending on what you call new tools. Wasting money on green energy and other new tech until it actually
C&T 2.17	С	pencils out is a waste of effort and MONEY.
C&T 2.18	С	Water in this community is a puzzling thing. It is ridiculously expensive and tastes awful.
C&T 2.19	С	Yes, I believe we must take care of our own and give locally.
C&T 2.20	С	Sounds good but not sure exactly what this means.
		Silverton does a good job in assisting those in need from what I know. My Question is if there are
C&T 2.21	Q	mechanisms in place to help get those on different programs back to being self-sufficient? I believe in helping those who hit a bump, but are working to make their situation better.

00=0-	_	
C&T 3.8	С	There seems to be strong support of all levels of needs for the low income/elderly population.
		Silverton's low income clinic, food bank, free meals to children during school and summer and housing
		assistance at apartments are a reasonable start. I suspect Silverton is within normal limits of other communities and that this is not a main community priority. Possibly more housing assistance from the
		state would be helpful. Those choosing Silverton to live have traditionally dealt with the increase in rent
C&T 3.9	С	and housing costs over Salem.
C&T 3.10		Not a primary responsibility of the city
C&T 3.11	С	Agreed but this seems to be a state, rather than a city, issue.
		Our food bank really does do a great job. Our senior center location makes me wonder. How many can
C&T 3.12	С	actually get there without a car?
		I love Silverton, but at age 73 I'm having to face the fact that I may have to leave Silverton to move to
		retirement community elsewhere. I would LOVE to see Silverton build just such a facility right here,
		offering Independent Living. I appreciate that we already have an Assisted Living facility, which is great,
C&T 3.13	Α	but we need a place for people who want to live Independently in a Retirement Community setting.
		Of course I do. Again, it's up to the individual citizens and their own generosity to accomplish this. No
C&T 3.14	С	taxes to force people to do it!
		Affordable housing doesn't mean cramming 93 units behind Wilco, this is going to be a nightmare. Maybe
C&T 3.15	Α	these units need to be built in the "wealthier" areas, so you'll understand what we're talking about.
23. 3.10		But not that we can do this alone. These efforts need to be supported with the use of county, state, and
C&T 3.16	Α	federal funding, as well as grants.
C&T 3.17	С	Citizen's are empowered, not local government
007040	•	Providing we don't do so much outreach that other cities send us there homeless, sounds harsh but it
C&T 3.18	C	happens
C&T 3.19	C	I don't think this is something that can be tackled at the community level alone.
C&T 3.20	С	Citizens sometime feel powerless
C&T 3.21	Α	Local churches, charity's and private wealthy donors can help along these lines rather than Government.
		This can all be found in Salem it's only a few miles away and has all the infrastructure to meet those
C&T 3.22	С	needs.
O 0 T 0 00		Are citizens eQuipped to meet the challenges? SACA may need to be much larger; larger staff, more
C&T 3.23	Α	funding. I'd like to see other non-profits working from the building. If the citizens are going to be "empowered" then the city better start listening to them. Local government is
C&T 3.24	Α	a good old boys club! (Yes, i understand that there are good old girls, too)
C&T 3.25	С	This reQuires more government intervention than I feel comfortable engaging.
		Have community work days where we involve the young people with adult supervision to give back, such as cleaning up sections of town, where our elderly live, who cannot take care of their yards or homes on
		the outside. Maybe some of the church youth groups could be involved. My daughter in another city was
		part of a youth group that would take a block of the city at a time and the teens with adults would clean up
		yards and haul trash away for the elderly, then have a pizza lunch, it was a party and the teens loved it,
C&T 3.26	A	the homeowners/renters could give a donation if they wished to the food bank, but our city looked great.
		Encourage early childhood education by providing Quality preschool experiences for all children no matter
C&T 3.27	Α	incomedoes silverton have a head start program?
C&T 3.28	С	But aside from Private charities this is the States responsibility. If Citizens want to help that is fine but its
3.20		not the City TAX PAYERS responsibility to support low income people. SACA is an amazing resource. We must continue to support the program and find ways to extend their
C&T 3.29	Α	services.
C&T 3.30		I think this could be a bit better.
		I realize that the attraction of Silverton is in part its beauty and "Quaintness", but that attractive pull
		shouldn't also push out people from the community because they can't afford housing. The property taxes
C9T 2 24	_	in this town are ridiculously high and unfair. So many people who live in poverty in this community are in
C&T 3.31	С	poverty because of the expense of living here. I would like to see a multilevel senior living facility put in Silverton. It must be affordable and meet the
C&T 3.32	A	needs of a diverse population.
C&T 3.33	C	I like the emphasis on citizen leadership in lieu of reliance on the City.
C&T 3.34	C	There are several resources for this currently through the city, county and state programs,
3		a. 2 corolar received for the currently through the only, country and clate programs,

C&T 3.35	С	It important to help if we can, but its not our responsibility to provide low income families with critical
C&1 3.33	C	needs. WE ENVISION a Silverton where neighborhood groups look out for our
		community at the local level, focusing on safety, security and emergency
COT 4		
C&T 4		preparedness. I don't know what these neighborhood groups are however. Emergency preparedness is the priority as
		that's when I feel more at risk of personal safety problems or property security. The flip side of the above
C&T 4.1	С	perception, is that I find Silverton to be a very safe overall, especially downtown.
C&T 4.2	Α	We need to focus on earthQuake preparedness in the schools.
C&T 4.3	Α	Promote CERT (via Silverton Fire Dept.)
		This is confusing. I like neighbors supporting neighbors. Indeed. I'm proud of my (nurse) daughter. She did
		welcome and treat those in her neighborhood; free wound care and emergency treatment. (Shh this may
		have been illegal.) Unfortunately, both my children have moved out of town, to nearby communities. They
		work full time. Also take in single moms, and found it expensive to live here. Emergency preparedness is
C&T 4.4	_	NOT a priority. EarthQuakes? Floods? Yup, they happen. Every dies at some point. Let's not spend our
C&1 4.4	C	living hours worrying about how to extend our lives. The emergency Early Warning System that is currently in place is great! The police/fire systems also
C&T 4.5	С	appear to be providing very good services.
		Increasing number and visibility of neighborhood groups focusing on safety, security and emergency
C&T 4.6	A	preparation is highly desirable.
	_	Are there neighborhood groups in Silverton? The only unifying voice I'm aware of is Silverton Connections.
C&T 4.7	Q	The there heighborhood groups in oliverton: The only dringing voice thi aware of is oliverton confidentions.
		For the most part I have wonderful neighbors and we do look out and are kind to each other. We do
		realize that if the dam ever broke we would be history. I have lived here since 1979 and cannot to afford to
		move. If I had known there was an earthen dam here I would never would have bought in the canyon and
C&T 4.8	С	close to the creek. I have informed others of this if they are thinking about moving here.
		Building a new police station and city hall in the old sQuare deal lumber yard, probably the lowest
		elevation around and certainly the first place flooded if the dam breaks or other flooding occurs. Where will
C&T 4.9	С	our first responders be?
		I class from a community where there was a neighborhood coalition, made up of neighborhood
C&T 4.10	С	associations that were mainly social groups. These associations met regularly and created a forum for addressing problems our simply getting to know and look out for our neighbors.
C&T 4.11	Ā	We should encourage more community out events so neighbors get to know neighbors.
C&T 4.11	c	Neighbors need to take care of each other and spend time together.
C&1 4.12		Disagree only because people tend to keep to themselves. Neighborhood groups like this only work when
C&T 4.13	С	those who can actually do for those who can't.
C&T 4.14	Q	What neighborhood groups? There are neighborhood groups?
C&T 4.15	С	Right minded volunteers are important to the fabric of a community.
C&T 4.16	С	Need neighborhood watch groups,
C&T 4.17	Α	Offer emergency preparedness workshops to community several times a year
		We still have neighborhoods were neighbors don't know neighbors. We need to find a way to get back to the old fashion way where we know each other, care about each other, and take care of each other.
C&T 4.18	С	·
		The force and power of our little town is in its people. We enjoy being a community and truly want to
C9T 4 10	_	create change in the world. Community/neighborhoods should get together and form cohesive units.
C&T 4.19	С	Everyone is safer when we look out for each other. Silverton has always been a safe community. I would like to continue to see a community where children
C&T 4.20	С	and adults feel safe. to walk the streets.
C&T 4.21	Α	I would love to see a system whereby neighborhoods could come together and gdt to know one another.
C&T 4.22	Α	As long as it is not up to the City to create and manage each of the groups.
		I would love to see a coordinated effort between all Silverton residents, churches, etc. to put a special
		emphasis on neighborhood block parties, caring for your neighbor. So much could be prevented if
C&T 4.23	Α	neighborhoods were more strongly connected and individuals are involved in their neighbor's lives.

		with neighborhood groups working with support from the Police, Fire Dept and other city dept's, I believe
C&T 4.24	С	its strengthens our community.
	_	Neighborhoods can only do so much for safety and security. We need to continue to have a fully funded
C&T 4.25	Α	police department that we can rely on to provide those services and protect our livability.
		WE ENVISION a Silverton where we engage, connect and volunteer to assure that
		a basic quality of life is available to every member of our community.
C&T 5		a basic quanty of the 13 available to every member of our community.
		Again I support/agree in principle. However I'm unclear on how "basic Quality of life" is defined and the
		words to "assure" (vs. help, facilitate, etc.) and "every member". 1) I have a similar unease with sense of
		entitlement I expressed in the education section. 2) I've got some concerns on how sustainable this is for
		"every member". How does Silverton attract and *retain* community members who are self-sustaining and
		contributing vs. being a magnet for those who participate little in improving their situation whether they grew up in Silverton, their grandmothers grew up her, or they just moved here last month. I'm unclear and
007.54	С	unsure how to find that balance. It's possible Silverton already has it.
C&T 5.1	C	A City Council that listens to the populace. e.g. concern from a neighborhood re. a "next door" large
		marijuana grow with specific concerns re. odor and security (talk of armed guards!), possible abundance
C&T 5.2	Α	of lights, etc.
		Outreach to new folks through meetings, gatherings, volunteering and opportunities to get a sense of
C&T 5.3	Α	"ownership" in the community
C&T 5.4	С	Our community has amazing volunteers who care so much about so many aspects of Silverton.
		Yup. That's why I volunteer for an hour or two weekly. It hurts my feelings, though, when persons (with
C&T 5.5	С	fancy coffee in hand), on disability (for some reason?) turn up their nose and tell others, "There's nothing
C&T 5.6		good at the food bank this week." Again, this appears to be the norm.
C&T 5.7		Individual volunteerism is a wonderful thing.
C&1 3.7		There are already many ways to connect in Silverton for those with time and inclination. Service groups,
		gyms, ymca, churches, school sports, etc. I don't see that this should be a focus to increase, just to
C&T 5.8	С	maintain.
C&T 5.9	С	A nice thought but as we grow it is less and less likely.
C&T 5.10	Α	we need a volunteer coordinator's office
C&T 5.11	С	See above
C&T 5.12	С	See #4.
C&T 5.13	С	City government needs to learn to talk with citizens. If any town can do it, it will be us.
007544	_	Again, would like to know the definition for "a basic Quality of life," as this more often than not seems to
C&T 5.14	С	mean "a mid-to-upper-middle class Quality of life."
C&T 5.15	С	What???
C&T 5.16	С	EVERY member is hugely optimistic. The reality is that not everyone is able to live in Silverton. Volunteerism in this community and maybe everywhere seems to fall on the shoulders of our elderly. We
C&T 5.17	С	need youth to engage and see the value of giving back to the community.
		I don't think you'll have to look too far for volunteers. However, people won't put their time and energy
		towards something that does not result in the betterment of our community. They need to see a plan and
C&T 5.18	С	its parts in order to get the ball rolling.
C&T 5.19	С	We all need to work together to see this happen.
C&T 5.20	С	Unrealistic goal, as we actually have less volunteerism in town than 10 years ago.
C&T 6		Optional: What is one action or strategy to help achieve this vision?
COTCA		Senior living facility at the Oregon Garden or property across the street - land that the city already
C&T 6.1 C&T 6.2	<u>Α</u>	owns. Brainstorm more specifics.
Cα1 0.2	Α	Presenting at senior center for seniors to be more informed. Lunch time topics for meals on wheels
C&T 6.3	Α	attendees.
		The city has had an adversarial attitude towards growth and development. New initiatives always meet
C&T 6.4	С	opposition. More inviting and forward thinking needs to emerge.
C&T 6.5	Α	We need affordable housing built or reconstructed.

		Church (faith-based groups) could sponsor/coordinate specific projects and programs that benefit the
		community (for instance, a church coordinates emergency neighbor-to-neighbor caring networks in
C&T 6.6	Α	times of disasters.
C&T 6.7	Α	Youth Center? Rental property director. Transitional housing.
00.1 0.1		Mobilize volunteers through churches. Sponsor low-income housing. Rental properties. Youth Housing.
C&T 6.8	Α	Places for youth.
		put our money where our mouth is - to fund these supports, decrease cost of live. lead by example -
		people follow, not where they're told to go, but when they see it -volunteer leadership. examples in
C&T 6.9	С	Salem like Sawuk house - mental health support. Look at "traditional" housing Youth center.
C&T 6.9 C&T 6.10		
C&1 6.10	Α	Community Watch Identify neighborhoods, boundaries, resources, not easy to do ion a mix of homeowners, renters, etc.
C&T 6.11	Α	praying for the community.
C&T 6.12	Α	After school programs that are designed to assist neglected children to learn basic life skills.
00.1 0.1.2		Name "Churches" somewhere in the vision statement. I would suggest "community needs. Churches
C&T 6.13	A	and neighborhood groups look out for"
		For people to give themselves and engage in this way we are going to need to team to celebrate our
C&T 6.14	С	town more make people proud of our community.
COT C 45	_	Preparation using the churches for the Cascadia earthQuake. Training, resources, planning, groupings,
C&T 6.15	<u>A</u>	chain of communication.
C&T 6.16	С	Minority groups: -Russians/ Eastern European -Hispanics
C&T 6.17	Α	Faith based organizations in the community need to work together in providing support for the low income families.
C&T 6.17	C	Wish I had more
C&1 0.10	-	I like the idea of neighborhood groups. I would also like to see public recruiting on a regular basis for
C&T 6.19	Α	volunteers with specific skill sets
		Use planning, infrastructure, and amenities to make walking and biking safe, healthy, and enjoyable.
C&T 6.20	Α	Our city should be safe enough for children to walk and bike to in-town schools.
		Silverton should select the most fitting standards for sustainable and resilient communities and certify
		as a sustainable and resilient community within 5 years. • Provide effective support to local food
		ventures, such as the farmers' market, Silverton Food Co-op, and other ways of connecting residents
		to locally and sustainably grown food. • Use planning, infrastructure, and amenities to make walking
		and biking safe, healthy, and enjoyable. Our city should be safe enough for children to walk and bike to
C&T 6.21	Α	in-town schools. • Assess and reduce water and air pollutants.
		Provide maximum support to local food ventures, such as the farmer's market, the coop, and other
		ways of connecting local residents to locally-grown food. Use planning, infrastructure, and amenities to
C&T 6.22	Α	make walking and biking safe, healthy, and enjoyable. Our city should be safe enough for children to walk and bike to in-town schools.
00.1 0.22		Everything cannot be a handout, resources will run out eventually. Teaching under privileged to work
C&T 6.23	Α	and be successful
		Continue and expand the efforts to partner/coordinate with all community agencies such as nonprofits,
		churches, schools, health care organizations, etc. The city has made efforts to be a hub for distribution
C&T 6.24	Α	of information about opportunities to inform citizens of opportunities to serve and should continue and
C&T 6.24	A	expand these activities whenever possible. a cap on rent charges
CQ 1 0.23		·
		FreQuent and on going communicationI know folks think this is being done but even "established"
		community members are sometimes not in the knowand we know folks have to hear the information
C&T 6.26	Α	many many times before they remember it or understand its implications.
00700		Silverton should select the most fitting standards for sustainable and resilient communities and certify
C&T 6.27	Α	as a sustainable and resilient community within 5 years.
		I don't know. Certainly not more freebies and enabling people to get free and subsidized food. We have actually 'created' jobs to give work to some. Unfortunately, they didn't care to take us up on it, and work
C&T 6.28	С	alongside my husband who was contributing to their support.
5 2.1. 5.20		Seek and find alternative funding sources and balance affordable with what Silverton should look like in
		the future. Be willing to accept that we may not be able to make Silverton affordable to everyone.
C&T 6.29	Α	Focus on the things we can provide.
C&T 6.29	Α	Focus on the things we can provide.

		We should rethink how we recruit and elect to local offices and boards. Representation on the City
		Council should be on an area-by-area basis. Neighborhood or geographical seats on Council would
		ensure a more eQuitable voice among residents, rather than the system we currently have. The current
		system, frankly, perpetuates a reality in which a very predictable and non-diverse set up individuals from an almost fixed demographic will be elected to the limited representational seats available. Put
		shortly what other way do you see to ensure that Mill Town (and other neigborhoods) is/are
C&T 6.30	A	represented on City Council?
C&T 6.31	Α	Keep taxes low and limit city programs, while encouraging philanthropy and volunteerism.
		The infrastructure such as streets, side walks and street lighting needs improvement in all areas of the
C&T 6.32	Α	city. Many back street areas are in poor condition.
C&T 6.33	Α	A central non-Facebook site where citizens can learn about and subscribe to news.
		Publish areas where volunteers are needed in the our town or appeal Quarterly or semi-annually.
C&T 6.34	Α	Those who would volunteer are more likely to make that step if they are aware of needs.
C&T 6.35	A	Be transparent and constantly remind community to be part of the decisions
C&T 6.36	A	Keep the pool open year-round; find funding
OG 1 0.30		Emphasize partnerships with organizations with expertise on these issues. City government doesn't
C&T 6.37	Α	need to do everything. It should facilitate collaboration to address important issues.
		Develop easy ways and access to volunteer activities. Provide activities that make volunteers feel
C&T 6.38	Α	meaningful, whether they can donate two or 20 hours of time a week.
C&T 6.39	Q	I'm unsure of the surveys direction and intent of several of the Questions in this section.
C&T 6.40	Α	Inclusive neighborhood associations, as above.
		Need a better way to disseminate information to neighborhood groups and all other citizens. Almost all
C&T 6.41	Α	of the information I get about the Silverton area comes from the 'Our Town' newspaper. I didn't find out about the 'Envision Silverton' project until it was almost over.
CQ1 0.71		The city waste water treatment plant needs massive upgrades. It is unhealthy for the workers there and
		for the residents that have to constantly deal with the messes that back up from issues. Also, More
		needs to be done about the dam. It needs to not get swept under the rug, because it WILL ruin the
C&T 6.42	Α	town WHEN it breaks.
C&T 6.43	Α	A strong, vibrant police force to keep crime out of our neighborhoods and our citizens safe.
C&T 6.44	Α	More readily available notice of what is on City Council agenda.
C&T 6.45	Α	Healthier dining out options. Education on healthy from the earth. farm to fork flyers that show support
C&T 6.45	C	and offer suggestions Follow the money and be accountable to tax payers.
CQ1 0.40	U	Increase efforts to support local organizations already doing this work, such as SACA and local
C&T 6.47	Α	churches.
		Improve public transportation to intersect with Salem, Oregon City and PDX so people can get what
C&T 6.48	Α	they need outside the immediate community.
COT C 40		Local liscensing of day-care and elder-care facilities. Support groups for families in crisis. Shelter for
C&T 6.49	C	people that need out of a untenable situation
C&T 6.50	A	You can't legislate values. Provide additional assisted care facility for elderly.
C&T 6.51 C&T 6.52	C	See above
C&T 6.52	C	Know your neighbors!
C&1 0.55	U	The city should consider "green villages" which includes a kitchen garden, small orchard, energy
		efficient building, water collection, etcas a form of affordable housing. There are many models across
		the country to study. The process could model what Habitat for Humanity does where applicants for the
		"green village" who will get a reduced rent rate must perform "sweat eQuity" in terms of volunteering
C&T 6.54	Α	for the community.
COTCE	Α.	Perhaps we could choose different neighborhoods to stage community BBQs in order to talk, meet and
C&T 6.55	Α	greet with neighbors, befriend the SPD force, and discuss ways to take action.
C&T 6.56	Α	Multilevel affordable senior living facility.
C&T 6.57	Α	encourage volunteering from local residents. Meet the police and fire like Take Back The Night are not that great in town. A big event by the park or
C&T 6.58	Α	garden would be fun for residents with a movie and free popcorn.
		The City should have a list of resources available to needy families/individuals and staff with customer
C&T 6.59	Α	service skills to point them to the appropriate resource.

C&T 6.60	Α	We need well managed low income housing for young people and young families.
		See above - neighborhood block parties. Maybe we already have a day and I just haven't heard about
C&T 6.61	Α	it?
		Silverton should select the most fitting standards for sustainable and resilient communities and certify
C&T 6.62	Α	as a sustainable and resilient community within 5 years.
		Provide effective support to local food ventures, such as the farmers' market, the co-op, and other
C&T 6.63	Α	ways of connecting residents to locally and sustainably grown food.
COTCCA		Use planning, infrastructure, and amenities to make walking and biking safe, healthy, and enjoyable.
C&T 6.64	<u>A</u>	Our city should be safe enough for children to walk and bike to in-town schools.
C&T 6.65	Α	Assess and reduce water and air pollutants.
		Optional: Do you have any new ideas or additional comments you would like to
C&T 7		share?
		We must be realistic about what health services and facilities can be sustained at the city level.
		Conversely all residents must have the mobility necessary to reach needed services be they in
C&T 7.1	Α	Silverton, Saem or beyond.
C&T 7.2	_	Statement 4: Determine areas that lack neighborhood groups. Need transportation to take advantage
Cal 1.2	Α	of most of these, eg. job interview, find housing, community services.
		Certificate of need R/T Sr. Housing Presenting info to Hispanic group that meets every Thursday at senior center. Sending info to InHome folks that meals on wheels delivers to -survey. Presenting at
C&T 7.3	Α	lunchtime.
		All of the "goals" here of a basic needs criterionthere is nothing having to do with aiming/reaching
		higher. Nothing having to do with a true improvement in Quality and achieving potential in life. My
		dream for my family is not just "meet all their needs". Increase in higher education. Greater access to
C&T 7.4	Α	trade training programs. Increased focus on art and music.
	_	Statement 3: Housing for young people is just impossible. Let's find a way to make Silver Creek a
C&T 7.5	С	significant feature.
C&T 7.6	Α	As Eugene Field School is removed, maybe build new housing and/or park and parking.
00===		Statement #2: Groups, including churches, could be asked to provide community-building events and
C&T 7.7	Α	programs in local parks. Creative, helpful, inspiring gatherings.
		Statement 1: One area that seems a challenge is the lack of transitional or rentral properties. I find
		many familing having a hard-time finding places to transition in Silverton. Lack of jobs. Youth
C&T 7.8	Α	homelessness - all youth who need a place to come together. Community Center for kids!
		Statement 1: Most jobs in this community are outsourced, can you bring in good jobs? I've heard it said
		that it is very expensive to run a business here. Consider Shilo waters, they left Silverton for Mt. Angel.
		Statement 3: The challenge in "low cost" housing is layered, concern with decreased property values,
		concern on crime, etc. Statement 4: Is part of why we live here, we feel a part of the community. All of
		that said, it is very expensive to live here. Practical ideaslow cost of building, incentivize business
		and commerce. Consider building/expansion with green space in mind - like P town. Prayer/foster
C&T 7.9	Α	spirituality. Create organized and publicized inroads to serve. Open eyes to see needs - awareness.
		Statement 4: Help define neighborhood group- boundaries, more or less then noise, yard care, activity
C&T 7.10	Α	Statement #3: Are the needs being met for middle class/middle income.
		Neighborhood groups overlap with other volunteer associations, people who live in one neighborhood,
C&T 7.11	С	work in another, worship in another, recreate in yet another.
		Statement #5: "a basic Quality of life" - is good, but how about: "volunteer to assist each member of
C9T 7 42	_	our community to reach their full potential"? Name "Churches" in "How we Connect and Coordinate"
C&T 7.12	Α	Coordination of efforts of nonprofits/faith based groups. So much is being done, but community is
C&T 7.13	Α	unaware so in many areas groups are duplicating efforts unknowingly.
331 7.10		
		I would like to see the churches take a stronger role in leading their bodies to address the visions on
		this page. I'd like to thank the city for creating visions and hope we find ways to care for Silverton's
		people through the churches. I'd like to see meetings with the city and church leaders like this one. I
		really think emergency preparedness is a great common ground for all people to get together and start uniting the community. Especially considering the earth Quake on the back of people's minds.
C&T 7.14	Α	aniang the community. Especially considering the earth Quake on the back of people's millus.

		O
		One area that I have observed in Silverton is the influence and incorporation of minorities and meeting
		their needs. It becomes difficult because of the language barrier and some of them do not want to be
C&T 7.15	С	found and/or focused on. There also appears to be a lot influx of people coming to Silverton that don't live in Silverton for community help.
C&T 7.16	С	no.
C&1 7.16	C	
		I posted disagree on a couple because the statements were too encompassing. I feel like we already have too much housing and do not want the apartment buildings that are being crammed down our
C&T 7.17	С	throat in the guise of a need for low income housing.
<u> </u>		
		Silverton will be a thriving food community in which all residents have the opportunity to grow, prepare
		and consume nutritious local food in order to support the health of the land and its people. City code
C&T 7.18	Α	will protect all citizens' rights to grow edibles and raise chickens, ducks, and bees within the city limits.
		I wish we could find funding for a new position on the city staff that would be a community builder
		responsible for spreading information and encouraging involvement in the many opportunities that
		already exist for citizens to be involved in improving our lives together and initiating new ones.
C&T 7.19	Α	
		Silverton is a gembut we can always do self reflectionI have not heard if we have a homeless issue
		or if there are adeQuate mental health support within this communitydo we have community
		established "norms" for what we expect for our youthe.g., do parents allow alcohol to be served in
		their homes to underage children and friends of their children? At one time, many families got together to agree to some of these basic agreements and it gave parents a sense of security that we were all on
C&T 7.20	С	the same page.
2		Silverton needs to do a better job of planning - it is preferable to use the downtown buildings before
		building new buildings on unused land, for example. Rite Aid should not have been able to build a new
		store without the old one having a purpose, for example. We need to plan responsibly with a clear
C&T 7.21	Α	vision for the future of our town.
		Provide effective support to local food ventures, such as the farmers' market, the co-op, and other
C&T 7.22	Α	ways of connecting residents to locally and sustainably grown food.
		I wish I knew the answer Our family has lived here for four generations (in humble one and two
O 0 T 7 00		bedroom homes; imagine that!) We're considering moving to a less fancy town, where perhaps we can
C&T 7.23	С	be good neighbors to those with more critical needs We cannot be all things to all people. Affordable housing is a worthwhile goal, but not everyone will be
		able to afford to live in Silverton. I believe we need to acknowledge that Silverton may, in fact, not be
		affordable to everyone. I do not want to see us sacrifice the "Silverton" we know and love by urban
C&T 7.24	Α	sprawl in an effort to make Silverton affordable to all.
		As above. We need to create a service and electoral structure in our community which offers a real
		shot at voice and participation to the non-white, non-business owning, non-upper income members of the community. As it is, those demographics have a disproportionate say and, frankly, do not have any
		understanding of the realities on the other side of town or at the bottom of the hill.
C&T 7.25	Α	
C&T 7.26	Α	We should not be funding social programs through taxes and fees.
00770		1. Adopt policies that promote affordable housing; 2. Promote senior affordable senior housing; and 3.
C&T 7.27	Α	Promote community policing and a strong police force.
C&T 7.28	С	See note in #3 above
		I believe in a free market for real estate, our zoning laws, and capital investments from Investors. I do
C&T 7.29	С	not support local government subsidized housing. I think some of this survey is designed poorly and
JG1 1.23		could be misconstrued. Neighborhood groups should also address cleanliness and upkeep of properties, especially where the
		elderly or invalid may be unable to keep up their property. That is, volunteer to clean up a neighbor's
C&T 7.30	Α	yard for example.
C&T 7.31	Α	Love to have city have low income assistance for water & sewer bills.
		I'm concerned with too much government over reach in these area's. No one want's too much control
C&T 7.32	C	over their personal freedoms, rich and poor alike.
C&T 7.33	Α	Charge developers the full cost of adding to the system over time.
		Community involvement and volunteers does not negate the need for strong leadership and support
		from city government. This reQuires staffing and salaries. The potential outcome is huge but it does
C&T 7.34	Α	reQuire an investment
C&T 7.35	Α	CERT TrainIng run by several agencies and not the fire department.

C&T 7.36	Α	Walking/running trails. There are too few places to walk that aren't shared with cars.
C&T 7.37	С	I am not sure. I feel like people are busy. There are more stressors and less reward for hard work these days. People want to be involved I just don't know how to achieve that involvement without making people feel like they are giving up any of their family time. It is important to allow people to feel empowered and part of a community, without feeling like it is a reQuirement or sense of entitlement.
C&T 7.38	Α	I think we should try to provide subsidies for lower income community members to help with water bills and/or property taxes to offset the costs of living in this community.
C&T 7.39	A	I love that we feed low income families and would love to see kitchen garden projects sprout from this. Finding a way to feed those in need by building gardens for them and offering workshops off gardening builds confidence, health, and offers a sustainable way for families to grow/receive food.
C&T 7.40	Α	We need to zone more property downtown for affordable multi-family housing.

		WE ENVISION a Silverton that is a connected community with strong
0004		citizen engagement, a clear vision for the future, and a detailed blueprint
C&C 1		to achieve it.
C&C1.1		not if you mean on-line blueprint
C&C1.2	C	Like the "blueprint" idea
		We don't need a clear vision for the future. We need a clear path to correct our past. All this talk
0004.0		of new housing and new jobs can't be handled without a complete overhaul of our infrastructure
C&C1.3		first.
C&C1.4	С	Good luck
		Not sure. I thought we had a blueprintwhich generously provided for community growth. So a decade ago I attended City Council meetings. However, I got discouraged and discontinued.
		Because those reasonable boundaries seemed to be extended/ granted an easement whenever
		ones rich enough saw opportunity for speculation. Even though I counted more than 40 houses
		for sale within city limits. We don't seem capable of adhering to blueprints if they restrict
C&C1.5		opportunity for revenue.
		Communication from the city would be welcome. Maybe a monthly newsletter, short email, or
		some other form of communication that reminds the community that mutual input and
C&C1.6	Α	communication is valuable. Like this questionnaire!
		Until recently, the impression of "a clear vision for the future" was simply not in place. Under
00047		past governance, Silverton was devastatingly let down in terms of support of the water/sewer
C&C1.7		infrastructure. Now there's an unbalanced scramble. Shame!
C&C1.8	Q	How will you get those who feel they cannot engage to engage? This is a challenge.
		Yes on citizen involvement but it needs to be reasonable. The vocal minority of a topic should
C&C1.9	_	not be the major influence of local decisions. Some in our community believe in making decision by making the most noise. That's not right.
CQC1.9	٥	During a last community survey (?2004?) citizens requested slow growth - the major and council
		then authorized development in Ike Mooney subdivision and other areas without infilling existing
		lots. While we are not opposed to lke Mooney subdivision, many did not feel the survey results
C&C1.10	С	were taken into account in this respect.
C&C1.11	Α	Create an interactive city website and promote the use of social media
C&C1.12	С	That statement pretty much means nothing.
C&C1.13	Α	Vision should be flexible enough to adapt to cultural, technical and social changes.
C&C1.14	С	The only time there is citizen engagement is if it affects that person. Nice thought.
		Can't agree with the 'detailed blueprint' part of it. Almost by definition, a 20-year plan can't be
		cast in stone, it needs to be flexible. If you run into roadblocks or can't achieve milestones for
C&C1.15	Α	any reason, the plans will have to be modified to keep up with reality.
C&C1.16		STRONG input by the community
		Two words: Silverton connections Lol. Facebook is awesome, but Silverton connections is
C&C1.17	Α	unique!
C&C1.18	С	Silverton will happen it just needs a little guidance and a few rules.
C&C1.19	Q	What do you mean by "connected"?
C&C1.20	С	Detailed blueprint implies no flexibility; too rigid a plan can be as problematic as no plan.
C&C1.21	С	If you don't plan you plan to fail!
		I like being involved, to learn about the issues and where I feel appropriate, to voice my support
		or concerns. I would have liked to had a voice in the decision to allow marijuana stores in our
C&C1.22	С	city by a vote as other city's did. I do not support how the council voted to allow it.
υαυ 1.22	U	We already have strong citizen engagement, what we don't have is a clear vision of the future
C&C1.23	С	and hopefully we are working to find out what that looks like.
		WE ENVISION a Silverton that has exceptional civic pride and community
0000		
C&C 2		involvement.

C&C 2.1	С	I believe there is a pride of community we just need to build on that and promote it.
C&C 2.2	С	I think we have this just need to sustain it
C&C 2.3	С	I believe Silverton currently does a wonderful job in this area.
C&C 2.4	С	make sure all schools know proper flag etiquette and enforce it!
C&C 2.5	С	We hope. We used to love Silverton.
C&C 2.6	Α	More volunteer opportunities would be great.
C&C 2.7	С	Yes!
000 2		Again, you have to make a real community, not just a social club. How are we actively reaching
C&C 2.8	Q	out to the invisible corners of our community.
C&C 2.9		I am Ok with average.
		Down town areas needs to be more attractive with updated side walks, cross walks, lighting and
C&C 2.10	Α	a face lift of many of the buildings.
C&C 2.11	С	City could do much more to encourage constructive public involvement.
C&C 2.12	Α	You should look to Mt Angel and their fests. The town seems to go all out.
		Only the people who have moved here recently got involved have created their own committees
C&C 2.13		that don't include the old sivertonians
C&C 2.14	С	I believe we already have that.
C&C 2.15	С	I believe we already have that.
		Keep this place unique. No big box stores. And keep those festivities like homer davenport, first
		Fridays, and more. Keeping a schedule that we can rely on and our children can bring there
C&C 2.16	A	children to is a wonderful thing that seldom occurs in cities these days
C&C 2.10	A	
		Silverton is special in community involvement, lets keep it that way with opportunities to do so.
		We need to build a new City Hall and Police Dept as they are some of our basic foundation. The
C&C 2.17	Α	staff help citizens in all areas, which benefits the community more than most realize.
C&C 2.18	С	Already have this in our community.
C&C 2.19	С	there should be a way to organize all the options to get involved and choose
		WE ENVISION a Silverton where a genuine partnership between citizens
		and leaders encourages meaningful dialogue that builds trust and lets
C&C 3		people be heard.
C&C 3.1	С	No hidden agendas
		I went one level down from strongly agree because I recognize how important the dialogue is, especially being heard. However, for some people or group interests it is impossible for them to
		be heard" unless city leaders agree to do what they want or otherwise meet their demands. And
		that is impractical many scenarios; probably impossible in all. That said, I strongly believe
		community leaders, whether elected, appointed or hired (e.g. police), have more responsibility to
C&C 3.2	С	foster that trust between themselves and citizens.
3000.2		See comments previous category re. the City Council listening to concerns of citizens vs.
C&C 3.3	С	"already having made a decision" and disregarding citizen input.
C&C 3.4	С	Being heard isn't as important as solutions of action that achieve those needs.
		Kick out the California residents so the school bonds can pass and we can focus on this towns
C&C 3.5	Α	future.
C&C 3.6	С	That has not been my experience. I try to be optimistic and keep hoping.
C&C 3.7	С	This needs to happen.
		I agree. In order to build that trust, community members must see greater evidence of
		· · · · · · · · · · · · · · · · · · ·
	_	responsiveness to community needs on the part of representatives council meetings must not
C&C 3.8 C&C 3.9	Α	· · · · · · · · · · · · · · · · · · ·

		Leadara should listen to the citizens before making decisions, and should consider all views, not
C&C 3.10	Δ	Leaders should listen to the citizens before making decisions, and should consider all views, not just the loudest.
C&C 3.11	A	Staff and elected officials must be open and transparent
000 0.11		Key word is genuine. "Check the box" engagement efforts are infuriating and lead to skepticism
C&C 3.12	С	and distrust.
C&C 3.13		Again nice thought. Good luck achieving it.
		Some of the city council members seem to only being voting in their interest and not in the
C&C 3.14	C	interest of the people. such as the marijuana issues.
C&C 3.15	ပ	EVERYBODY needs to be honest.
		Are there opportunities to do "meet and greets" where you can show up and talk with our
C&C 3.16	Q	leaders without having to pay to go to a fundraiser or event?
C&C 3.17	C	City has a long way to go on this communication bit
000040		This requires individual responsibility that works to achieve a greater good. We have had mixed
C&C 3.18		results but it is a goal worth keeping.
C&C 3.19		We all hope our City Council reflects this view!
C&C 3.20	Α	Community meet ups scheduled before city hall meetings??
		That trust word is really, really challenging these days. It seems it is a national issue that has
C&C 3.21	C	local implications. Would love to see working together and the spirit of cooperation and compromise be the norm.
000 0.21	Ť	I know our city council and leaders are busy, but they need to hear our concerns. I like how
		approachable the police officers are and support them. I look to our police officers as leaders
C&C 3.22	C	when something happens.
C&C 3.23	ပ	I appreciate the involvement in town meetings and forums.
		WE ENVISION a Silverton where we encourage open, honest
		communication, with multiple ways for sharing information, respectfully
		communication, with multiple ways for sharing information, respectfully deliberating on important issues, and seeking consensus on key
C&C 4		deliberating on important issues, and seeking consensus on key decisions.
C&C 4		deliberating on important issues, and seeking consensus on key
C&C 4		deliberating on important issues, and seeking consensus on key decisions. In my view, based on early training, it is important to get ongoing buy-in to a working definition of "consensus" as being able to accept a position, action or decision that I may not 100% agree

In my view, based on early training, it is important to get ongoing buy-in to a working definition of "consensus" as being able to accept a position, action or decision that I may not 100% agree with or like. Consensus is *not* unanimity. Therefore consensus on a decision does not mean everyone is happy, but everyone can live with and accept the decision for the overall or bigger well-being of the community. Let's encourage, support and sustain civil discourse by teaching civics in schools and, if necessary, through community service outlets. See above. Keep business, business and personal at home Thoughts and ideas should be shared but when disagreement occurs (and it will), unpopular beliefs should not affect ideas and reviews of that person for future decision making. Some kind of "billboard" where facts can be posted for all of us to readagain,a kind of "fact check" to address rumorsSilverton Connections on Facebook is a great media toolwe need

		This means informing citizens of important decisions being considered by leaders. Notification
C&C 4.10	Α	can not be left to a website or obscure posting. Mailers should go out to each household.
C&C 4.10		The situational has improved this area
C&C 4.11	J	The city council has improved this area.
		There are many existing ways for information sharing including our town, appeal, council meetings, silverton together, town halls etc. However in some situations it appears to be window
		dressing (i.e., see comments in section one about school board which seems to hand pick those
C&C 4.12	С	who support its agendas)
		Have a problem with consensus. Without that word this would be a great statement. Problem is
C&C 4.13	С	it will be difficult to come to consensus on many of the items we are faced with.
	_	Local government needs to adapt its communication and outreach efforts to changing society.
C&C 4.14	_	Newspaper stories aren't enough anymore.
C&C 4.15	Α	You need a different criterion for picking council members. Who are they listening to
		I have previously brought up my concerns to various city people only to be told that is just not
C&C 4.16	C	possible, or just ignored all together. It would be nice if some things had some actual thought put into them.
C&C 4.17		#3 and #4 are basically the same.
C&C 4.17		I survey like this one promotes this cause.
C&C 4.18	C	While this is the ideal, I am also realistic enough to know that it is unachievable.
C&C 4.13	U	<u> </u>
		Consensus is nice, but I don't know it attainable. Maybe compromise may be better. With all the
C&C 4.20	Α	varying views, there comes a point where decisions have to be made and not all will be happy.
		WE ENVISION a Silverton where collaborative communication helps
		Silverton make tough financial choices and secure resources to fund our

We must make sound decisions and use our resources with an eye toward long term success and sustainability. Continue to address the need to repair and replace our aging infrastructure while at the same time being sensitive to the ratepayer's ability to pay Admirable goal but elected officials must have the courage to tell voters they can't have everything. Public services cost money. It is cynical to promise improvement and to not raise services. I hear that money is not always well spent. What's with that? No new taxes, and no new fees (such as the never ending \$7.50 charged in our water bills). I simply cannot afford to pay for everything you envisiton. 'collaborative communication' among whom? Why not use 'collaboration' in place? But sometimes decisions have to be made in a timely manner. Collaboration takes time and must be planned. It doesn't just happen. Not happy with the role of government at this point in time period. Is it governments role to secure resources? Our priorities though tend to be only the ideas of the leaders at present - like those who word
C&C 5.1 C&C 5.2 C&C 5.3 C&C 5.4 C&C 5.5 C&C 5.6 C&C 5.7 C&C 5.8 C&C 5.9 C&C 5.10 C&C 5.11	C C A A C A Q C Q	where collaborative comm helps - or makes tough decisions??? Communication does not seem to be the issue. 'Our' priorities seem different. A self reliant Silverton would be optimal. Sooner rather than later. I see little evidence of Silverton making tough or sound financial choices. New HS is a classic example. Waste of money. Failure to properly maintain our other existing schools will result in future wastes of money. We must make sound decisions and use our resources with an eye toward long term success and sustainability. Continue to address the need to repair and replace our aging infrastructure while at the same time being sensitive to the ratepayer's ability to pay Admirable goal but elected officials must have the courage to tell voters they can't have everything. Public services cost money. It is cynical to promise improvement and to not raise services. I hear that money is not always well spent. What's with that? No new taxes, and no new fees (such as the never ending \$7.50 charged in our water bills). I simply cannot afford to pay for everything you envisiton. 'collaborative communication' among whom? Why not use 'collaboration' in place? But sometimes decisions have to be made in a timely manner. Collaboration takes time and must be planned. It doesn't just happen. Not happy with the role of government at this point in time period. Is it governments role to secure resources?

		To a point. We're all going to want more service, better infrastructure, and less taxes, so at
000545		some point leadership will have to make decisions. The "buy now, pay later" decisions of the
C&C 5.15	ပ	past haunt us.
		Effective leadership does not allow ignoring tough decisions like keeping our spending in
	_	balance with our income. Define "secure resources" - that apparatus is already in place. We
C&C 5.16	С	must live within our income.
	_	We don't need fancy, we do need beauty (art), a city that is easy to walk around. Places where
C&C 5.17	Α	community members can gather.
		I agree and support strengthening our Police, Fire and Public works. For so long, they have
		been put off to the side. We need a new Police Dept and City Hall/Council chamber badly. If
000540		they are not able to work at the highest level of productivity possible, it affects so many other
C&C 5.18	Α	aspects of Silverton business, schools and support agencies.
		WE ENVISION a Silverton where dedicated volunteers and generous
C&C 6		donors help fulfill our community's unmet needs.
		In principle I definitely agree. However I'm concerned that some critical minimum levels of
		support could be brushed off onto volunteers & generous donors. Perhaps this is part of the
		above statements about collaborative communication and consensus about priorities.
C&C 6.1	С	
C&C 6.2	С	can't plan for volunteerism. can't put volunteerism in plan.
		I feel this goes along with helping the elderly. How is a senior citizen who brings in only so much
		in social security supposed to put a new roof on their home, for example? Will a bank give them
		a loan if they are 85 years old and possibly will not be able to make the full payment? Assets
		would likely be seized upon death to pay for it. Wouldn't it be great if that was one less burden
		on our senior citizens who cannot afford to fix their homes? Truthfully, it's all around. Loan after
C&C 6.3	С	loan after loan in order to fix our homes, and no way to ever feel like we have a handle on it.
		Volunteerism is important and soul fueling, BUT we can not depend on them to fulfill unmet
C&C 6.4	С	needs.
		And they arewe ask so much of our donors and we are so blessed that they care so much
C&C 6.5	Q	and are so generousare their grants out there we are not pursuing??
C&C 6.6	C	
C&C 6.7	С	They need to be NEEDS though, not extras.
C&C 6.8	С	We try, but 'wants may be more accurate.
		More volunteer opportunities. The more community members we have taking part in the upkeep
C&C 6.9	Α	of our city, the more 'pride in ownership' we will have.
C&C 6.10		That would be lovely.
		Volunteers is a well-and-good concept. However, generous donors is a perpetuation of giving
		disproportionate power and voice to the moneyed. It allows them to determine the path forward
		for the entire community because of their wealth. Donors should have no role in public
C&C 6.11	Α	processes there is always a string attached.
C&C 6.12	Α	
		I would be willing to pay more taxes if the money would be used to provide services fro those in
C&C 6.13	С	need.
		What? Pass the hat to fund city services? Services cost money for staffing, equipment, etc.
C&C 6.14	С	Have the fortitude to tell voters that if they want services they have to pay.
C&C 6.15	С	I think we have that in our food bank and library.
		we need a Silverton volunteer office that promotes and coordinates volunteers with people,
C&C 6.16	Α	schools, agencies that have needs
C&C 6.17	Α	Let's raise taxes and meet needs without relying on volunteers and philanthropy.
		I do donate. As Silverton adds new fees and allows utilities to raise charges, I have less money
		to donate. I'm seeing more people go to the food bank on a regular basis (some that may not
C&C 6.18	С	really need the service).
		,

		How about the not-so-generous donors? 'Dedicated' could be taken to mean dedicated to one
C&C 6.19	A	thing/project. Couldn't you just say 'volunteers and donors'?
C&C 6.20	С	Our taxes are the highest around. How do we still have unmet needs?
C&C 6.21	C	It is nice, but not everyone has time to volunteer.
C&C 6.22	С	The need for volunteers in the community is scattered through too many sources.
C&C 6.23	A	Great idea but there must be a plan to take care of things when the volunteers aren't available. The volunteer jobs need to allow people to make choices to select and have ownership to help see through. I'm happy to do a job but don't micromanage it if I'm volunteering.
	_	We have that - We need the Leaders to listen to the people and spend on what is needed and
C&C 6.24	Α	not on revitalization and clinics etc. Volunteers can help buy this still requires a significant investment by the govt. If this is simply
C&C 6.25	С	viewed as a way to get cheap labor, it will fail. If it is viewed as a way to supplement city services through the contribution of committed creative citizens, it will flourish and greatly improve our community. One of the beauties of volunteerism is that every socio-economic demographic can, and should,
C&C 6.26	С	contribute.
C&C 6.27	Q	Donors? what donors?
C&C 6.28	С	Our city income IS what it is. We can't provide everything for every citizen, no matter how we may want to. This means we must rely on the generosity of locals who have the resources and time to help our town. Much better that than increased government intervention.
C&C 6.29	С	Yes!
C&C 6.30	A	In lieu of "generous donors" - because this is not a community of wealthy people - we need to make sure we do not exhaust the "dedication" of our volunteers. Our community is full of great people - but most of them are scraping to get by and working hard to do it. If you expect volunteerism, you need to make it possible (financially) for people to donate some of their time, energy and knowledge to the cause. That being said, I think we have a wealth of untapped knowledge and experience hidden in our retired community members. We also need to welcome businesses into our community that will benefit the community and partner in community projects. For example - Wilco supports our local FFA. The new Dutch Bros. donated their opening days' funds to the school district. One of our local dentists, Dr. Kim, often donates to our children and the community at large. In order to keep these types of generous fundings, we need to understand that we must welcome in new businesses to share in that community burden. Otherwise, we are going to bleed the wonderful people we do have dry.
C&C 6.31	C	We all need to do our part.
C&C 6.32	Α	Support the concept, but it seems the same people show up. We need to figure out ways of getting more volunteers involved.
C&C 6.33	С	Sounds good in theory, but what are the unmet needs and who is really qualified to volunteer to assist in these areas. To vague of a question!
C&C 6.34	Α	We need to have a way to know what those needs are, at this point we don't have a plausible way to volunteer to meet unmet needs.
		WE ENVISION a Silverton where leadership reflects the diversity of our
		community and people of all backgrounds are empowered to lead. We
C&C 7		see our diversity as a strength and an opportunity.
C&C 7.1	С	Yes I believe in this vision statement. However I'm not sure I'm in tune with how others in Silverton define "diversity." I've observed an overwhelmingly white, Christian, "Oregon Trail" community, strongly reflected in City Council & Police. I've seen little geographic, cultural or religious diversity. Being from "out of town" is Molalla. There is very little racial diversity. I'm unsure if this is a blind spot for Silverton or a reflection of Oregon overall.

		I've said it before and I'll say it again. Our School board and our City Council need more
		diversity. It is 2015. We need to get with the times and understand that unequal representation
		of our community means our community suffers as a whole because parts of it are being
C&C 7.29	С	overlooked.
C&C 7.30		Diversity makes for a more interesting community.
		I don't see a lot of diversity and maybe that's my own insulated world. What diversity that is
C&C 7.31	С	present will always have different priorities.
C&C 7.32	Α	We must find ways to have racially and ethically diverse people at the table. If they are not there it's not their fault, it's ours. We need to create a safe place where multiple languages are spoken and people from different cultural experiences find their experiences reflected and valued.
C&C 7.33	С	I agree, but I also want those truly interested in improving the Silverton way of life and safety. I want those in leadership to qualified and not a situation based on classification or status.
C&C 7.34	С	Council and Mayor are voted in. It's hard to get diversity when opening are filled via an election. When filling city positions it should be by the best candidate, not trying to hire someone who is a certain ethnic minority.
C&C 7.35	A	This should be seen in schools so that the kids of today are open to a diverse tomorrow.
C&C 8		Optional: What is one action or strategy to help achieve this vision?
C&C 8.1	C	The envisioning process is a god start.
C&C 8.2	C	We already have two-the City of Silverton's newsletter and the S. Falls School District's newsletter, both inserted in our town. The hospital used to have a similar publication.
C&C 8.3	С	These are easy to answer - in a perfect world there would be no need to ask! 4. We are moving this way using social media.
C&C 8.4	O	I like "leadership reflects the diversity of our community"
C&C 8.5	A	I think that offering community classes in Spanish might go a long way towards encouraging cultural exchange and communication. Perhaps Russian classes might also be offered. Recognizing and supporting cultrual diversity and exchange would enliven the community culture rather overall.
C&C 8.6	С	Energy independence
C&C 8.7	A	• Silverton should select the most fitting standards for sustainable and resilient communities and certify as a sustainable and resilient community within 5 years. • Silverton will embrace its identity as Oregon's Garden City and our heritage as an agricultural community by creating the local capacity to meet our own nutritional needs. All residents will have the opportunity to grow, prepare, and purchase nutritious, sustainably-grown local food that supports the health of the land and its people. City code and resources will protect and support all citizens' right to grow edibles and raise small-scale livestock within the city limits.
C&C 8.8	Α	Silverton should select a Sustainable Community standard and certify as a Sustainable Community within 5 years.
C&C 8.9	С	The strong presence of Silverton Together years ago made many of these goals attainable. It is unfortunate that Silverton Together lost funding and became anemic and ineffective over the past decade. It was an example of how one well-run and carefully staffed entity could stretch limited funding to do tremendous good for our town.
C&C 8.10	Α	First Fridays and other "get together" days downtown, in the park, and in the community center are good opportunities to brings diverse folks together.

		City and a suit and a suit aid antity as One and a Candon City and a suit and a suit and
		Silverton will embrace its identity as Oregon's Garden City and our heritage as an
		agricultural community by creating the local capacity to meet our own nutritional needs. All
		residents will have the opportunity to grow, prepare, and purchase nutritious, sustainably-
		grown local food that supports the health of the land and its people. City code and resources
		will protect and support all citizens' right to grow edibles and raise small-scale livestock
C&C 8.11	Α	within the city limits.
C&C 8.12	Α	Engage youth and encourage volunteerism at an early age.
		Access to sharing information. Remind people not to rely exclusively on social media for
C&C 8.13	Α	their information!
		Eliminate programs specifically targeted toward diversity, but seek citizen engagement from
C&C 8.14	Α	all sectors of the community.
C&C 8.15	С	journalism to let people know what's going on
		we need to do outreach to all neighborhoods of the city with local meetings and asking for
C&C 8.16	Α	input and participation
		I think the development of social media and improved tech for communication (such as this
		survey) have and are going to be very helpful in getting more of the community involved and
C&C 8.17	С	receiving feedback from them.
		Need better methods to communicate and coordinate among citizens. Current methods rely
		on citizens to find out about issues, projects and plans on their own (that is, they have to look
C&C 8.18	Α	for them rather than being told about them)
		Improve online availability of recorded city council meetings and school board meetings.
C&C 8.19	Α	Should be immediately available online instead of weeks later.
		Be sure to continue on-line video's of all government meetings, including the school board
C&C 8.20	Α	meetings.
C&C 8.21	Α	lets secure union workers the right to volunteer in their communities
		There are no statements here that aren't common sense. I am at a losswhat is it you're
C&C 8.22	Q	trying to do here?
	اااا	If we could find a way to make our motto have something to do with volunteering, I think we
C&C 8.23	Α	could do great things.
		If we want a diverse community to care for and act in the best interests of that diverse
		community, we must be more open and welcoming to our fringe groups at large. We have
		almost no people of color here. We use our Latino workforce to pack our frozen foods and
		clean our buildings. We laugh at Stu. We allow our policemen to be less than polite to
		community members. We complain about our children playing in the streets. We underfund
		our library so that it is closed two days a week. We don't welcome new businesses that
		might compete with older ones. We ignore our city streets, water lines, building, etc. for
C&C 8.24	С	YEARS then expect people to pay for it now.
CQC 0.24		
C&C 8.25	Α	Beautification of our city through local art. Benches to sit on everywhere, and bathrooms close to town.
340 0.23	\vdash	
1		City staff must be willing to accept that "the way we've always done it" may not be the best
C&C 8.26	Α	way. They must be willing to enter into dialogue with knowledgeable citizens.
3 5		We have to ask for participation even when it seems futile. We have to repeatedly extend
		our hand even when it is ignored or rejected. We have to be clear in our timelines, so that
		people understand their window of opportunity. We have to be flexible enough to listen when
C&C 8.27	С	others are ready to talk, even when it is inconvenient.
35.5 5.27	Ť	Silverton should select the most fitting standards for sustainable and resilient communities
C&C 8.28	Α	and certify as a sustainable and resilient community within 5 years.
300 0120	, ·	and certify as a sustainable and resilient community within 5 years.

		Silverton will embrace its identity as Oregon's Garden City and our heritage as an
		agricultural community by creating the local capacity to meet our own nutritional needs. All residents will have the opportunity to grow, prepare, and purchase nutritious, sustainably-
		grownlocal food that supports the health of the land and its people. City code and
C&C 8.29	A	resources will protect and support all citizens' right to grow edibles and raise small-scale livestock within the city limits.
		Optional: Do you have any new ideas or additional comments you would
C&C 9		like to share?
C&C 9.1	A	In a community this size, the local businesses are tapped all to often. Caution is advised about the burnout factor with both volunteers and donors. Student Rep to sit on council, with or without voting power.
C&C 9.2	A	 Support local leaders (adult and youth) and grassroots community building via trainings, networking events, and other capacity-building programs, as well as by providing logistical support, gathering spaces, and financial aid for projects that support the city's vision.
C&C 9.3	С	Honestly, I don't know how it could be done. I just know that if our homes are all taken care of then we all benefit from it. And for senior citizens it's more of a struggle than even we are experiencing.
C&C 9.4	С	These questions are difficult to disagree with.
C&C 9.5	Α	Support grassroots community building by providing logistical support, gathering spaces, and financial aid
C&C 9.6	A	Make a concerted effort to obtain new funding and bring back a robust Silverton Together.
C&C 9.7	С	The Community Dinners at First Christian Church have been a wonderful resource to bring those from different faiths, different social and ethnic backgrounds together.
C&C 9.8	A	Support local leaders (adult and youth) and grassroots community building via trainings, networking events, and other capacity-building programs, as well as by providing logistical support, gathering spaces, and financial aid for projects that support the city's vision.
C&C 9.9	С	Communication is a critical component for connectivity, but it is a two-way street. All the efforts in the world to engage are productive only if people avail themselves of the opportunity to become informed.
C&C 9.10	Α	Connecting includes transportation, i.e. reliable, regular public transportation, and support of alternative options, such as bicycles and walking.
C&C 9.11	С	The Silverton Appeal does not have enough information. There is more information found about what is going on in "Our Town"
C&C 9.12	С	I don't see how this survey will be useful. Obviously all of the questions are positive utopia ways of living. How will this Lickert scale of nonsense provide any useful information on how to proceed in the future
C&C 9.13	С	Let the old Silverton residents have more of a voice and be open to them instead of letting the new take everything over because they get over bearing
C&C 9.14	С	Volunteerism is alive and well - SACA, the fire department, Wednesday dinner, boy scouts, Lions, Elks, Rotary etc Sorry if I missed your efforts this is just a short list.
C&C 9.15	A	Support local leaders (adult and youth) and grassroots community building via trainings, networking events, and other capacity-building programs, as well as by providing logistical support, gathering spaces, and financial aid for projects that support the city's vision.

		WE ENVISION a Silverton that has a strong local economy that carefully balances Silverton's gro
HWP 1		with its continued small-town livability, quality of life, and affordability.
HWP 1.1	С	We all live in Silverton because it is a small town. Quality of life is more important that population growth.
HWP 1.2	A	No sprawl. No development without associated infrastructure i.e. sidewalks connecting developments to core, parks, walking
HWP 1.3	A	unfortunately our housing costs are extraordinary for young "newcomers"join our community
		For this goal, it is essential that we don't allow businesses to build new buildings and leave the downtown and other strip malls
HWP 1.4	Α	vacant. That's not responsible.
		Unfortunately, we are no longer a small town, and I miss it. It now seems to be all about tourism and funky shops and a plethological statement of the contract of the contrac
		fitness centers. It's sprawling all over, continuing to grow. I don't see the need ANY new development to be approved. There s
HWP 1.5	С	be plenty of existing houses for sale. No wonder: Affordable? When our water/sewer bill is over \$90. in the winter when we are
HWP 1.6	С	As long as the town doesn't grow too much. I moved here for a reason=)
HWP 1.7	Α	Strong local economy requires local ownership and control of a good portion of the Silverton business spectrum.
		Yes, but this community is not affordable. We need increased commerce and industry to help find this balance, to help fund sc
HWP 1.8	Α	and to help provide a quality of life that is comfortable.
HWP 1.9	С	These are mutually contradictory statements.
HWP 1.10	Α	Please consider an urban growth boundary.
HWP 1.11	С	This is one of the most important reasons Silverton is a desirable place to live.
HWP 1.12	С	This doesn't mean "no growth" which will only make living here more expensive
	_	Growth equals doom for a town like Silverton. The basic street layout creates gridlock already during certain times of the day,
HWP 1.13	C	small blocks, too much traffic, and stop signs. We need to stay small in order to preserve what charm there is.
HWP 1.14	C	You can't have both growth and the same small town feel. But Silverton lost that small town appeal 20 years ago.
HWP 1.15	A	We need to be open to welcoming to anyone who has Silverton's interest even if are different than us.
HWP 1.16	С	I do not think this is happening. Silverton has grown too fast, "outsiders" moved here because they loved the charming town, then they changed about everyth
		they could about it. I'm fortunate enough to be old enough to have my own home, but it's a struggle for my grandchildren (we v
HWP 1.17	С	born here) to even find a place to rent.
HWP 1.18	C	At the rate things are going now we will not be a "small-town" we are getting close to Keizer/Salem status.
HWP 1.19	A	The one way streets are a good option. Please do not consider returning to two way streets.
HWP 1.20	C	Please! No big box stores.
HWP 1.21	C	I like the idea, but finding the balance is key. We seem to have new business that come and undercut the old too many of the
HWP 1.22		Follow the money and be accountable to tax payers.
HWP 1.23	_	More growth we will no longer be a small town
		Housing developments should only be approved in response to growth of local job creation. If we can't recruit and build local
HWP 1.24	Α	business to employ the populous, we should not need to build additional housing.
HWP 1.25	С	too many houses being built
[_	I might prefer the term "paces" over "balances" concerning the growth of Silverton. Healthy, living things grow, and typically co
HWP 1.26	С	to experience quality of life. Artificially stimulated growth (think over-active Pituitary gland or HGH) almost always has some de
HWP 1.27	Α	Encourage call for advertise for help more artists working artists to come to Silverton.
LIMB 4 CC		I disagree with the affordability part. I don't see how we can be all things to all people. I am more interested in keeping our small in the little and appearance there is trained to an air and a positive and discounting.
HWP 1.28 HWP 1.29	C	livability and appearance than in trying to engineer affordability and diversity.
HVVF 1.29	Α	Lower taxes and water/sewer rates so that we are not forced out of our homes. Tourism seems to be a driving force in the sustainability of this town. It may be difficult but Silverton must be able to grow but so
HWP 1.30	Α	maintain its small Rockwellesque feel that is part of our tourist draw.
11771 1.50	 ^	Too much growth, with cheap, slapped together houses. Sad to see the in filling of houses on what we're once large beautiful
HWP 1.31	С	Makes the city feel cramped and ill planned.
	Ť	I don't mind a little growth in this town if it improves the lives and wallets of our community members. I do not think that we hav
		"enviable" quality of life here in Silverton. It is too expensive to live here. For being 15 miles outside of a major city, the goods
		services here are far too pricey. More people would shop in town if they could afford to. But that means keeping costs of living
HWP 1.32	С	working and shopping in town at an affordable level.
HWP 1.33	С	We simply cannot grow too large given the entries and exits of our community. Traffic could become a nightmare.
		Until our infrastructure is repaired, I do not think we should allow any new construction that will tax those systems even more tl
HWP 1.34	Α	they are already capable of.
HWP 1.35	С	No big box stores
HWP 1.36	Α	We need more jobs to provide a larger tax base, especially if we want to improve our school buildings and infrastructure.
[_	I support planning for the future with a balance of business we are proud of. I don't want to be known for marijuana grows. If
HWP 1.37	С	someone wants to do that, go out in the country.
		WE ENVISION a Silverton that diversifies its economy, welcoming new investment and creating
HWP 2		that sustain our families, our community, and our civic institutions.
HWP 2.1	Α	W/emphasis on small-town livability and quality of life.
		As long as the new industry contributes positively to good, well paid jobs, education and community involvement. The Quikrete
HWP 2.2	С	was NOT the type of industrial growth that we need/want.
		Non polluting, sustainable developments that maximize the production qualities of the area food processing, seed processin
HWP 2.3	Α	education, tourism
HWP 2.4	Α	only if they do not take away from the specialness of SilvertonI do not want a Walmart or other big store of that nature to cor

HWP 2.5	С	The more diversity in the economy, the larger the city. It's great to provide jobs, but not if that means Silverton becomes a large

HWP 2.6	Α	via tax incentives, grant programs, and business services.
		Welcoming new investment is code for welcoming the same businesses which have made cookie-cutter communities of zero
HWP 2.7	С	character and which have choked out locally-owned family-run businesses. We must be extremely cautious about welcoming r
	_	Silverton is better left as a home away from the city. This is a refuge away from all that is wrong with the failed policies of
HWP 2.8	С	Portland/Salem. We shouldn't aim to grow ourselves beyond our current agricultural and satellite economy.
LIMB O O	_ ا	Business owners report extremely high fees to get a business started or a home built. Need to lower these fees to encourage I
HWP 2.9	Α	businesses. Not standards just fees.
HWP 2.10		Encouraging excellent businesses, restaurants, etc to remain or come to silverton rather than just landlords filling storefronts v be a very desirable strategy. We REALLY don't need any more coffee places
HWP 2.11	A	The shortage of apartments and multi-family housing options is a problem that needs to be addressed
11001 2.11	-	An excuse for developers to create gridlock in a community they don't live in. Developers don't have a stake in keeping a town
HWP 2.12	С	charming and livable.
HWP 2.13	C	I do not think this is happening.
HWP 2.14	С	Its not the job of the government to determine diversity in jobs and businesses. That should be determined by the marketplace
HWP 2.15	Q	Who gave Bruce Pac permission to block off two streets?
HWP 2.16	С	Do not agree with commercial marijuana grows in city limits.
HWP 2.17	С	"welcoming new investment and jobs" THAT DO NOT HAVE TO WITH DRUGS!!!
		Again, the goal of diversity should not surpass the true economic needs. Creating jobs for the sake of more jobs is not always
HWP 2.18	С	best interest of the economy.
HWP 2.19	С	Jobs would be great but Quikcrete and BiMart were chased out. We need to help people see how these types of businesses w
H/WD 0 00	_	"creating jobs" can sometimes be a code-word for those seeking to lower standards in order to bring less than desireable industriate to the same than the same than the same than the same that the same than the same that the same than the same than the same than the same than the sa
HWP 2.20 HWP 2.21	C	into town, such as heavy manufacturing or large box stores.
11VVF 2.21	Α	Keep foreign investors out. Encourage legal immigrants and made in America products that are safe and of good quality, like t But within reason, i think Silverton should choose some centers of excellence as focal points for industry. Medical? Hemp? Te
		Ag? Industries with above median base salaries to create disposable income available to the community. Adding a Bi-Mart, W
HWP 2.22	Α	Mart, Starbucks is not the right kind of "diversification"
	 	Ideally, the new "investors" would be expected to "pledge allegiance" to the Vision and Goals being negotiated here and expec
HWP 2.23	Α	tangibly invest in moving Silverton towards what is envisioned just as much as the typical citizen is, if not moreso.
HWP 2.24	С	Chamber not active for its current businesses. Do something. Not talk about it.
HWP 2.25	С	This might sound good but it might change Silverton too much. Is it so wrong to be a bedroom community?
		Silverton has not been friendly to business in the past, we let large businesses take over and put our small businesses out. La
	_	corporations do not worry about our community, they are just there to make as much money as possible. They do not give to
HWP 2.26	A	community activities, because any donations have to go through their main offices and that takes a year. We need to encourage
HWP 2.27 HWP 2.28		We must balance the kind of new investments in order to protect our "small town livability."
HWP 2.28 HWP 2.29	C	As long as it does not conflict with the previous statements goal. But again we cannot grow too large!
HWP 2.30		No big box stores
HWP 2.31	C	I think the idea of having Silverton be a place to grow, produce and sell pot is a bad idea.
HWP 2.32		Bringing business to Silverton could be good if done with foresight and not just based on money.
		WE ENVISION a Silverton where we also strive to support thriving homegrown businesses that re
		our small-town feel, building on our natural assets and amenities to attract visitors, commerce
HWP 3		economic opportunity.
HIVVES		I see an untapped potential for Silverton being a hub or a gateway for eco-tourism. E.g. some of the vacant downtown storefro
		could house outfitter type businesses. Some might meet the needs of high skill and higher risk activities like ice-climbers of Mt
		Jefferson or guided 3-5 overnight hikes or mountain bike tours through Silver Falls, Opal Creek, etc, Other businesses, or brar
		of one outfitter business, might focus on bird watching or garden tours, or package retreats at Breitenbush, to wine tours east
		of the Willamette River. Another business might be equipment rentals & sales needed for some of the guided adventures. Ove
		living quarters could be converted into AirBnB -type rentals meeting different price points. Another business might be a downto
		shuttle that takes different day hikers to tent campers to Silver Falls Park 3-5 different times of the day from late spring to early
		Silverton's advantages as a hub or gateway to a unique or hybrid mix of agro-tourism, eco-tourism and adventure travel: 1) clo
HWP 3.1	Α	enough to Portland Airport for out of state/country tourists 2) more charming, compact & walkable than Salem, 3) located anyw
HWP 3.2	С	Yes!
LIMB O O	_	and we all need to pledge to support our current businessese.gwhy go to See's in Salem when we have the Chocolate Box
HWP 3.3 HWP 3.4	C	Silverton? and on and on!!
HWP 3.4 HWP 3.5		Enough visitors already. We avoid downtown. Only good for tourist junk. Same as above
HWP 3.5		Prefer local business that sells domestic products, not all imported products.
	⊢	This is an area where it is desirable to focus grant monies regarding support for home grown businesses, supporting beautifications and the support of the s
HWP 3.7	Α	and supporting activities related to the garden, and community events such as pet parade, art festival, etc
	 	Attracting commerce and economic opportunity is what Hillsborough, McMinnville, Beaverton did. They've lost quality of life an
		charm. Why can't Silverton maintain at it's current size? It seems to be doing fine. Why can't people who want growth move to
HWP 3.8	С	another growing part of the country if they want growth? Why do these individuals not see the danger of growth and not see th

I DAYS C. C.		
HWP 3.9	C	I really do not think our down town would accomplish this.
HWP 3.10	С	Please no Big Box stores. Not having them is one way we retain our small town feel.
		Allowing second hand stores to pile up their products in front of their stores looks really junky, and blocks the sidewalks. The n
		garbage cans down town are UGLY and dirty, how does that attract visitors? Why are businesses allowed to put tables, chairs
		boards, etc., on the sidewalks that block walkers. If they want to expand, then they should pay for the space and I'll have to wa
UWD 2 44	С	the street. Allowing the gallon house to place all it's garbage containers in front and side, on the disabled spot, along with the I
HWP 3.11 HWP 3.12	C	stream of refuse water dribbling out to the street is not attractive. Last year, the City allowed them to put a tent up (ugly!).
11441 3.12	U	I am unsure how the town as a whole would "strive to support" local businesses. We need to be able to make wise decisions based on cost. For visitors to impact our city it needs to be for more than just the c
HWP 3.13	С	weather days.
HWP 3.14	C	Though I would hope "homegrown" does not include marijuana shops and dispensaries.
HWP 3.15		Key words: "retain small-town feel"
	7.	I agree if done with baby steps. I do not like the red plastic sign on Dairy Queen. I do not think that Bi-Mart would be a good fit
HWP 3.16	С	Silverton. I really like the yarn shop on Main Street. I'm picky.
HWP 3.17		We need to be more than a bedroom community for Salem and Portland
		I think we should encourage/add more food trucks to the town - much like Old Oak Oven. Also, it would be nice to have shops
		town that don't simply specialize in one thing. This is not sustainable. Look at Whimzy. They have a little bit of everything. We
HWP 3.18	Α	more clothing/shoe options in town.
HWP 3.19	ပ	I would like to see all our stores filled.
HWP 3.20		If we can keep any more national chains from coming in, that would be great.
HWP 3.21	Α	I would like to see a commercial kitchen where people who are starting food related businesses could use it to safely produce
HWP 3.22	Α	Limit access to marijuana sales and grows, instead invest in businesses that are quality.
		WE ENVISION a Silverton where as we grow, our bottom line is always attuned to balance an
HWP 4		providing for the needs of our residents and visitors in a sustainable way.
HWP 4.1	С	not sure what this means
HWP 4.2	Α	need to severely limit new construction until we have plenty of water for our needs
HWP 4.3	С	Our streets and stop signs and flow of traffic continues to baffle our "tourists" and we need to address this for safety reasons
HWP 4.4	С	I agree we need to be sustainable, but I also think we need to be careful about our growth so we don't become a large city.
HWP 4.5	Α	Base all relevant city decisions on the most current climate science.
HWP 4.6	C	I disagree with encouraging growth at all.
HWP 4.7	Α	Moderate growth with particular attention paid to the ability of our infrastructure to sustain it.
		Visitors are only beneficial to our community to the extent that their visits can help provide for the needs of our residents. Ther
HWP 4.8	С	need for balance in this. We should attract visitors, but never lose sight of the fact that our town is for residents and visitors should be attracted and provided for to the outcome that they improve the lives of the full diversity of our community residents.
HWP 4.9		only be attracted and provided for to the extent that they improve the lives of the full diversity of our community residents. Common-sense sustainability is OK, but not if extreme measures are required to achieve it.
HWP 4.10		Sustainable growth, more recycling & use renewable resources, solutions outside the box are necessary.
HWP 4.11		Very definitely, very important!!!
HWP 4.12		This not a lofty goal but the town is made up of its people.
HWP 4.13		This seems poorly worded - I can't tell what you're trying to ask.
HWP 4.14	С	The city needs to greatly improve this balance
HWP 4.15		residents first.
		However, my understanding is this is currently not in balance due to decades of deferred maintenance - this is a reality people
		to understand. Maintaining water, sewer, schools, and roads aren't free - and are critical to recruiting and retaining businesses
HWP 4.16		home owners with disposable income) in the community.
HWP 4.17		Growth is inevitable; preserving the appearance and flavor of Silverton is a high priority. How do you define "sustainable way"
HWP 4.18		Not real big all the stupid sustainable stuff.
HWP 4.19 HWP 4.20		It would be nice if we, as a community, developed a savings account rather than a deficit we must cover.
□VVF 4.2U		It is all about balance! If we don't keep our citizens and visitors in mind, they will go elsewhere. We need balance in providing quality products that ar
HWP 4.21		attractive to many and not just a select few.
11441 4.21		
		WE ENVISION a Silverton where a balanced economy means Silverton is prosperous yet afforda
HWP 5		dynamic yet down-to-earth – remaining a community where we continue to want to live.
HWP 5.1		Small business is Silverton!
HWP 5.2	С	These questions are hard to disagree with
HWP 5.3		are we intentionally surveying new folks in our community to ask them what brought them to Silverton? Are we conducting any
HWP 5.4		interviews as to why folks leave Silverton? Maybe our real estate folks could help with this??? These questions are a bit ridiculous - who WOULDN'T want something like this??? The question is HOW, not if.
11441 3.4	U	Increase local, high-quality, green jobs, and create a workforce development plan to train local residents, including our high sc
HWP 5.5	Α	and returning college graduates, for these jobs.
HWP 5.6		No longer affordable; Our sewer/water bill is ridiculous.
HWP 5.7		Affordable is a relative term and we need to be cognizant of the fact that we cannot make Silverton affordable to all.
HWP 5.8		can't be everything
HWP 5.9		Be more business friendly.
HWP 5.10		Esp. need affordable, yet well-constructed housing for all ages.
ILIMAL 2.10		

	-	
HWP 5.11		yessss!!!
HWP 5.12	С	Balanced economy is a fancy way of saying we're going to open the town up to subdivisions and traffic.
		This is what brought me to Silverton but I think it is being lost. Building all those houses at the end of water street was not a gc
HWP 5.13		idea and now adding migrant housing will make getting onto Water St from the side streets a bigger nightmare.
HWP 5.14	С	Again, the marketplace will determine balance.
HWP 5.15	ပ	Our sewer rates and the additional \$7.50 tax is not affordable. The City has allowed too much development, it's overtaxed our
HWP 5.16	С	Would it require new laws in order to have a "balanced economy" and "affordable"? All of those terms would need to be define
HWP 5.17		This is why we live here
HWP 5.18	С	Had 5 businesses in Silverton. I supported it not the other way around.
HWP 5.19		Sure, in a perfect world. I don't know how to achieve this but it sounds nice.
		We need to support our Police and Fire Departments to do community education, we have had several home fires in the past
HWP 5.20	Α	fortunately with no fatalities, but what is going wrong that our homes are burning, look for the cause and educate our people so
HWP 5.21		Put very well!
HWP 5.22	Ā	Keep housing affordable not everyone who lives here can afford 250+ homes.
HWP 6		Optional: What is one action or strategy to help achieve this vision?
HWP 6.1	Δ	
	Α	Plan for neighborhood cohesion. Develop neighborhood Advisory Councils.
HWP 6.2	Α	Senior living on the land owned by the Oregon Garden or other city owned land. 1) offer local tax incentives, credits, deferrals, etc. for qualifying outfitter-related businesses &/or alternative lodging (tho I the
		lodging would come 2nd after reason to visit has more people coming) 2) possible team up with state economic developme
		to see what help or assistance they may provide. at least learn what priority is tourism in general and eco-to-agro-tourism
		specifically. e.g. I'd guess high-tech, with emphasis on compute manufacturing is in the top 3 priorities for Oregon economi
		development. Where is tourism? top 5? top 10? other? What economic data, including growth projections, can they share v
		you? 3) there's also the Travel Oregon dept and recent marketing campaign. While their current focus is on the "7 Natural
		Wonders of Oregon" the overall objective (I believe) is to increase state tourism income. There may be a useful connection
HWP 6.3	Α	in the early formative stages of biz development, than in the mid to long range stages of development
		SO important not to lose our small town culture! That's what has drawn so many of us to live here. Also, important to keep
HWP 6.4	Α	beautiful woods, farmlands, openness and not fill them with housing developments!
		I think that the development of a community food co-op is a powerful move in the right direction for supporting local produc
		opening new jobs, and keeping profits at home. More moves in this direction would be ideal. It would be worthwhile for loca
HWP 6.5	Α	government and businesses to financially support this movement in order to make this concern a reality sooner.
		• Silverton should select the most fitting, desirable, and promotable standards for sustainable and resilient communities and
		certify within 5 years. • Increase local, high-quality, green jobs, and create a workforce development plan to train local resic
		including our high school and returning college graduates, for these jobs. • Use tools, such as zoning and incentives, to pro
		local energy independence. • Retain and expand local, sustainable businesses via tax incentives, grant programs, and bus
		services. • Adopt a plan for increasing local production for local consumption, as well as for export. • Base all relevant city
		decisions on the most current climate science. • Reduce idling vehicles and stop-and-go traffic in areas intended for pedes
HWP 6.6	Α	traffic. • Eliminate energy and water waste in industry, community, and infrastructure. • Support and create alternative wate
HWP 6.7	A	Kickstarter University. A place where ideas can be built on and creatives can come and make those ideas real.
HWP 6.8	A	Use tools such as zoning and incentives to promote energy independence using green, renewable energy sources.
11111 0.0		While there will be initial costs to building a focus on sustainability, it is a goal that will ultimately grow our economy as we a
		new citizens to our town who are mobile and want to live in a place that reflects their personal priorities. Our proximity to Po
HWP 6.9	A	and Salem positions us ideally to capture the attention of progressive, educated, involved people who seek a healthy place
11111 0.5		Silverton should select the most fitting, desirable, and promotable standards for sustainable and resilient communities and
HWP 6.10	Α	within 5 years.
11001 0.10		Continue to address the care of our critical infrastructure, realizing that those costs are something we need to accept in orc
HWP 6.11	A	achieve this goal. Our infrastructure didn't get in its deplorable condition overnight and we won't fix it overnight.
HWP 6.11	A	No more malls, ugly buildings, big corporation businesses. beautify the entrances to town.
11441 0.12	_	lets help support local small entrepreneurs through affordable commercial rents (enterprise zones), promotion opportunities
HWP 6.13	Α	careful limitation of outside corporate ventures.
HWP 6.13	A	To invest in our downtown through improvements to the facades, sidewalks, and streets to clean up our small town feel.
11111 0.14	_	Growth of Silverton should be heavily watched. It has a small-town feel because it is a small town, it will be difficult to main:
HWP 6.15	С	"feel" of a small town and maintain balance if it continues to grow at a fast rate.
HVVF 0.13	C	
HWP 6.16	_	If we want more downtown business we should eliminate the parking meters! its hard enough to park downtown and then c
	Α	people for it? allow 15 minutes parking for business owners/employees to unload and that's it. Develop more off-site parkin
HWP 6.17	Α	Don't take leading edge position on marijuana grows. Let other cities figure it out first.
HWP 6.18	Α	i believe this vision needs more detail, and more defined terms. A group or forum would need to be developed.
HWP 6.19	Α	Focus on recruiting a couple of businesses to open facilities in Silverton.
		I suspect Silverton has one of three routes it can take: 1). Determine to be a tourism town and go "all in" to achieving that e
LIMB C CC		greatly. 2). Determine to bring in some real industry (aside from Hospitality/Tourism) that can generate real value aside from
HWP 6.20	A	tax revenues, and become an engine for growth. 3). Build on the Tourism industry already present and expand the relativel
HWP 6.21	Α	More financial support from the city chamber and people.
		Municipal broadband. I've even come up with a name, Silvernet. Free to use at your discretion. Sandy successfully run mul
HWP 6.22	Α	fiber Internet that we could use as a template.
HWP 6.23	Α	Sustainable food and energy systems development to enhance economy.

	, ·	. G. a. a

		WE ENVISION a Silverton that is guided by a clear vision and comprehensive plan for the commu
P&I 1		with meaningful public involvement and strong consensus on a direction for our future growth
		I agree with a vision and public involvement. However, I think strong consensus when the public is too involved leads to direc
		using feeling where logistics should be priority. This is a difficult grey area. There are some priorities for Silverton that have be
		tabled due to community. Somewhat like a child and parent; you want the child to have a voice and guide them to make corre
P&I 1.1	С	decisions on their own. Ultimately, there are times when the parent needs to make an executive decision for the greater good
		with our current leaders this is very possiblebut we need to hear more about discussions at key meetingslike a summary o
P&I 1.2	Α	discussion items and any decisions
		We need a clear vision for our community and right now, we do NOT have that. Rite Aid's new building and their old, empty or
P&I 1.3		a classic example of not having a plan for the future.
P&I 1.4	Α	Would like to see the growth slow down some. Salem's not far away if we need conveniences.
	_	what you mean by 'envisioning' Planning? Wouldn't it have been more practical to bring Pine Street through to C street? Ins
P&I 1.5		of putting a fancy new building there for Police + City hall?
P&I 1.6		This is why we need to complete the vision and planning process in a nutshell.
P&I 1.7		THIS IS THE WORST SURVEY IN THE HISTORY OF MANKIND.
P&I 1.8	C	MEANINGFUL public involvement. I'm not convinced this exists.
D9140		Consensus requires the ability of those who disagree to do so without causing a disruption. I agree with consensus but I agree
P&I 1.9 P&I 1.10		more with our republic model of government where elected officials make informed decisions based upon public input. If we all have to agree, nothing will be accomplished.
P&I 1.11	A	Need a good city master plan and shared with every one.
P&I 1.12	C	The councils do not listen to the citizens.
P&I 1.13	A	developing alternate choices we can review and discuss is important
P&I 1.14		Emphasis on " meaningful," not just letting us talk about things that are already "a done deal."
P&I 1.15		Public involvement is important but with a reminder that some people are totally uneducated in this facet and it's important to I
P&I 1.16	C	should not be employee parking on down town streets
P&I 1.17	ပ	Even when people get involved they do what they want anyway
P&I 1.18	Α	Strong commitment to open space and saving wetlands, forests and natural areas
		I am not sure strong consensus is possible since many would prefer zero or negative growth. They don't understand that wou
P&I 1.19		an indicator of social decline.
P&I 1.20	C	How could one not agree with this statement? Please listen when we tell you that we do not need more congestion on streets that cannot handle it. Build into the plans for n
P&I 1.21	Α	apartments and developments the cost for increased school sizes and services
P&I 1.22		Plans need to be flexable as no one can predict whats going to be changing in the next few years
P&I 1.23		Future growth should be very slow and controlled Silverton will loss it's smaller town feel.
P&I 1.24		We are as strong as our visions.
P&I 1.25		It is vital that somebody be hired to make sure that this plan actually gets implemented and is not just a bunch of words
P&I 1.26		Consensus is a real challenge Strong consensus is almost laughable. Noble, but laughable
P&I 1.27	C	If we don't have a plan, then our city will look like a patch work of mis-matched endeavours.
		WE ENVISION a Silverton that is open to new ideas and opportunities. We fund amenities that ur
P&I 2		our community and enhance family life, carefully maintain and improve our public infrastructure,
P&I 2.1	ပ	see earlier comments on the priority of upgrading public infrastructure, it's direct impact on public health/well-being and emerg
P&I 2.2	ပ	Caution on zoning. Flexible in thoughtful zoning management but not opening anything goes.
		I believe in zoning laws that will prevent overtaxing our resources, so I can't support the vague "flexible approach to zoning"
P&I 2.3	A	concept. Let's grow sustainably, thoughtfully and carefully and accept that this is not a quick-fix direction.
P&I 2.4	<u>A</u>	But not "too flexible" re. zoning
P&I 2.5 P&I 2.6	A	I want to see a bike/pedestrian friendly town that encourages getting out, walking, and riding together throughout our area.
F 031 Z.0		flexible approach to zoning which benefits the community and not a select few developers to line their pockets at the cost of the Zoning is the part I am unsure of. What do you mean by zoning? You want to turn residential areas into commercial ones? The
P&I 2.7	ဂ	too broad of a question - not sure if it is asked with a hidden agenda in mind.
. 5. 2.1	٧.	I would appreciate the city following through on it's old ideas first; like the sidewalk promised on Steelhammer when the FIRS
P&I 2.8	С	subdivision was allowed there? Now they've allowed a second one
		We need to adopt clear and protective policies with regard to zoning and development. Flexibility leads to inconsistency and a
		system which can be manipulated to serve "case by case" scenarios. Generally in such scenarios, the big companies or
P&I 2.9		developers with deep pockets get the advantage. We must hedge against this by drawing clear lines and holding to them in the
P&I 2.10		What does "take a flexible approach to zoning" mean? This item sounds great up until then. There are some zoning situations
P&I 2.11		Silverton is quite nice as it is.
P&I 2.12	Α	Please consider an urban growth boundary.
P&I 2.13		balancing the need to replace or repair aging infrastructure with residents ability to pay increasing utility bills is a major challer
P&I 2.14	С	Flexible approach to zoning equates to opening up more land to developers.
P&I 2.15	С	Silverton has already lost its appeal to me. I remember the days of Hande Hardware, Western Auto, Chuck's Sporting Goods all of that. Now it's art galleries, wineries, and bistros.
P&I 2.16	_	Don't agree with flexible zoning
1 41 2.10		Don't agree with nexible 2011ing

	1	Iner an analysis of the second
D 010:-	_	"Flexible approach to zoning" is code for let developers do what they want. Oregon's strict land use laws are one reason we d
P&I 2.17		suffer from urban sprawl like other states.
P&I 2.18	Α	Your decisions are toward what builds the tax base.
P&I 2.19		No flexible zoning
P&I 2.20	Α	Need more details on what you mean by flexible approach to zoning.
P&I 2.21	Α	Don't be too flexible with zoning!
P&I 2.22	С	The city is big enough. We need to utilize the area and buildings already in place without building new, or expanding out.
P&I 2.23	Α	I would like the verbage of this statement to be reviewed (i.e. "Fund amenities", "carefully maintain", "flexible approach")
		We need more options. The town is growing towards the falls but what about towards Salem? The city infrastructure would have
P&I 2.24	Α	less stress if new homes were built on the West Side.
P&I 2.25	С	Disagree opn the flexible approach to zoing issue.
P&I 2.26	С	Sounds good in theory, we must be alert to corruption and back door deals.
P&I 2.27	Α	employee/ customer industries should not be down town ie reality, mortgage, and other employee intensive entities
		You had me right up until the flexible zoning part. That suggests sprawl and potentially incompatible uses. I'm more supportive
P&I 2.28	Α	zoning that is carefully aligned with a thoughtful, conservation based comprehensive plan.
P&I 2.29	Α	prioritizing public infrastructure funding.
P&I 2.30	С	Flexible suggests exceptions to zoning laws, leading to inconsistent application which can lead to conflict.
		Would prefer, "allow for some degree of flexibility concerning zoning when the community deems it wise, and or necessary."
P&I 2.31	Α	Everything else, I "Strongly Agree" with.
		I'm not clear on zoning flexibility. I would like the City to be flexible on many fronts but not to the degree that anything goes. I v
P&I 2.32	С	strongly disagree with a rigid, my way or the highway attitude from government.
		"A flexible approach to zoning" seems very vague; I have no idea what kind of things it might refer to in practice. We don't act
		like zoning? We will consider every application regardless of our zoning? If so, that seems to vest extraordinary authority with
P&I 2.33	Q	whoever happens to be running city government at the time. If not, what does it mean?
		Flexible approach to zoning? No. Where did that come from? I think I can guess some builders and real estate people. Hov
		about string requirements and plan and spec review that isn't a joke? New houses are built in a matter of days and I am conce
		about the quality. Drainage issues, in particular, are often inadequately addressed. A friend was having a house built here and
P&I 2.34	С	builder told him that their working relationship with the city was "close" and permits would not be a problem. I'd refer permits b
		IF our downtown core is preserved. I value good streets, sewers and water systems above something new like a performing ε
P&I 2.35	С	center (not that it has been proposed).
		This is complicated especially in regards to zoning and "new opportunities." Sometimes zoning feels stringent and unnecessa
P&I 2.36	Α	sometimes it protects the overall health and livability of the town. I believe that each proposal needs to be weighed on a case
		Zoning and plannig code should be reviewed and changes made to support the community not developers. There should be \tag{V}
		to stop developers from building huge apartment complexes. There should be more concern about corperate noen signage lik
P&I 2.37	Α	the new Rite Aid instead of community yard sale signs.
		Absolutely not I couldn't disagree more. We ranked as one of the highest taxable cities in the state of Oregon however we do
		have amenities such as sidewalks that run all the way down from the reservoir of water Street to downtown Silverton (The mo
		heavily trafficked area in the city of Silverton), yet more than three quarters of the population of Silverton probably use this fair
		to either walk, jog, or run. I cannot tell you how many times we've been walking down Water Street with our kids and have had
P&I 2.38	Α	worry about cars coming to close and not having a proper side walk to keep them safe on. Where is the money from our properside walk to keep them safe on.
P&I 2.39	С	Here too it is all about balance.
P&I 2.40	Α	Penny tax to build a new playground for our kids. One they can use year round (it's out of commission right now).
		I like everything except I am concerned about "flexible approach to Zoning". I agree we need to be flexible when it comes to
		Commercial and Industrial. Based on recent events "flexible zoning" under state law will mean we will have no control and
P&I 2.41	Α	developers will be able to do what ever they want. We need clear and specific land use laws when it comes to residential zon
		Keep families a priority with a balance of parks, schools and green space. I don't want to see marijuana stores or grows on ev
P&I 2.42	Α	other block. They will have an adverse impact on our young people over time.
B010 15	_	Set zoning laws are there to protect us from the unknown. You can't change zoning laws on a whim just to bring new business
P&I 2.43	C	town that was restricted in the past. That 's not what Silverton is or is about!
		WE ENVISION a Silverton where viable small businesses in downtown are a focal point of Silverton
P&I 3		growth plan, with support for its arts, culture, and natural attractions.
		EDIT: We Envision a Silverton where unique, locally-owned businesses are a focal point of Silverton's growth plan, with supp
P&I 3.1	Α	for its arts, culture, and natural attractions.
P&I 3.2	Q	Small businesses? Downtown?
P&I 3.3	C	Absolutely!!!!!
P&I 3.4	С	Yes!
P&I 3.5	С	No more chains or box stores please.
P&I 3.6	С	Doing well. Continue on this path to get more businesses here.
		J

	1	
		I think many of the "non store front" businesses in Silverton are overlooked and under recognized. My husband is a small bus
		owner of a construction company and I feel these businesses are not taken into consideration when thinking about Silverton's
		viability. The amount of employment and business (accounting/payroll/etc) these types of businesses bring to the area is ofter
		undervalued and the "downtown" businesses who have a hard time sustaining themselves at times are overvalued in this tow
P&I 3.7	С	There is a "downtown core" however, their are businesses all over that sustain Silverton. (example: Seven Bridesgreat businesses)
P&I 3.8		Close a couple streets on various week-end days. Create a downtown pedestrian-friendly zone to shop and eat and relax.
1 41 010	<u> </u>	Natural attractions: I want to thank the city for installing new steps down to the creek, across from the city park. Unfortunately,
P&I 3.9	С	city pool is too expensive for us to use.
P&I 3.10		
	A	The downtown is important and needs to be vital, but let's not ignore other business ventures outside the downtown.
P&I 3.11	A	Build up, not out. Silverton's downtown is so unique and valuable.
P&I 3.12		Again the city needs to be more business friendly.
P&I 3.13	Α	We need to revitalize our downtown while at the same time promoting business and job growth in the entire town
P&I 3.14	Α	Silverton's downtown has many opportunities and nice shops. Rejuvenation or closure of streets to make park like setting wor
P&I 3.15	Α	Nation wide franchises are extractive while locally owned business's keep more of their income local. There should be a local
		We need to get a mix of businesses. It seems like we have lots of the same type of things which just undercuts the other
P&I 3.16	Α	businesses that have been established. Competition is good but we can only have so many coffee shops and Asian food opti-
		There should be more upkeep of downtown its what gives Silverton character. Less focus on the outlying strip malls and m
P&I 3.17	Α	on downtown. The sidewalks are becoming terrible.
P&I 3.18	С	inclusion of above detract from this idea
P&I 3.19	A	Getting people in existing buildings is fine but we need no more building just fixing
P&I 3.20		ONLY agree "IF" the downtown is "a" focal point and not THE ONLY focal point.
P&I 3.21		What does this mean?
1 XI J.ZI	٧	I would love it if downtown Silverton could continue as it was 60 years ago, filled with small independent businesses. I'm glad
D01000	_	old buildings are still here. I understand that it is very difficult to make small businesses thrive as in the old days. Are you think
P&I 3.22	С	of tax incentives to help small businesses? I'm in favor of preserving Silver Creek, the city park, the downtown core. What do
		I don't believe Silverton welcomes new businesses. There are too many hoops young entrepreneurs have to jump through. I v
P&I 3.23		like to see this changed, to find a way to encourage local businesses to start up in Silverton.
P&I 3.24	Α	I would love to see more retail stores downtown in all the empty spaces. Silverton needs to support local small businesses no
		Honestly, I feel there is a great "push" for small window businesses in Silverton. However, the other construction type/out of the
P&I 3.25	С	box businesses get overlooked. How can we focus not just on the "window/downtown" businesses, but, everything that make:
P&I 3.26	С	One way streets have always been a problem.
P&I 3.27	С	Incentives on local business for those who run their business and live in the city.
		Information of hood business for those who fair their business and live in the oity.
P&I 3.28	С	
P&I 3.28 P&I 3.29		These are the businesses which make Silverton special, which draws visitors to our city.

		WE ENVISION a Silverton that maintains its small-town charm, with a vibrant downtown and varie
P&C 2		shops and small businesses that serve visitors and locals alike.
P&C 2.1	Q	"Downtown"?
		I find this statement much more inclusive and easier to get behind, support and possibly even champion. I also like that it appears
P&C 2.2	С	respect visitors vs. being overly concerned about 'what "silverton is doing for me and/or my kids,"the entitlement vibe I somet
P&C 2.3 P&C 2.4	C	Not just preserves small-town charm, but remains a small-town. The infrastructure is not equipped for a population increase.
P&C 2.4	C	No chain stores But we need to get more businesses in town to fill the empty spaces!
P&C 2.6	A	we must support our local businesses!
1 45 2.0		If downtown is going to be a "core area" that includes celebrations and shops, it needs to be redesigned and rethought. I often
		"out of downtown" locations because of parking and traffic. It gets so crowded down there and it is hard to choose to take my sr
		children to events when I know it will be chaotic for drivers and pedestirans alike. Please think about these things. We may not
P&C 2.7	С	to change the direction of the traffic, but something needs to be done to help add charm to those shops and events.
P&C 2.8	С	Our downtown is only for tourists, not for residents anymore
		Absolutely, without exception! It is not beyond reason to create a secondary modern "downtown section" remote to our historic
P&C 2.9	С	section that will encourage and support the vision of changing with the times while nurturing our historic roots.
P&C 2.10	С	but with an understanding that this "feel" also requires thoughtful growth and a willingness to accept it.
P&C 2.11	Α	Needs more parking to accommodate
P&C 2.12	Α	Needs to be more attractive down town.
P&C 2.13	Α	Need turn empty spaces downtown into more viable space.
P&C 2.14	С	Right on!!!!
D0 0 = :-	_	Charm of the town ,the new Maps is a modern looking building ,look at Mt. Angel keeping with a theme , as many small towns c
P&C 2.15	С	CHARM CHARM ! ITs not rocket science .
D0 C C 12	_	Silverton has become tooartsy. All the galleries, wineries and such. Brings in a lot of stuck up people that really should have s
P&C 2.16	С	in Portland.
P&C 2.17	C	Being LOCAL is the key to preserving what makes Silverton great - the people.
P&C 2.18 P&C 2.19	Q	Does that really go with the rest of the plan?
ΓαC 2.19	М	Need a basic clothing store.

	ı	Dut it was also believes between business We have to a more that are to similar Objectified and in our and that are one of the target of the continuous business.
D00000	_	But it needs a balance between business. We have too many that are too similar. Okay if it's antiques or art, that grows busines
P&C 2.20		but how many coffee and Asian food restaurants can we have before they knock each other out.
P&C 2.21	С	Not if you continue to move people in
		This is CRITICAL so that SIlverton doesn't wind up looking like any other boring town. People don't seek out small towns to see
P&C 2.22	С	buildings and strip malls.
P&C 2.23	Ā	The city should devote as much attention to livability issues as it does in supporting the Chamber of Commerce and business
P&C 2.24	Q	I understand why we have one-way streets but they still don't "feel right". Can we debate restoring two way streets (again)?
	_	
P&C 2.25	Α	Keep Silverton Small!
	_	Get rid of the parking meters, I will not shop downtown because of them, it is not the money, it is the principle, if you want to
P&C 2.26	Α	encourage the downtown businesses, have free parking
P&C 2.27	С	This is one of my very favorite things about this community.
P&C 2.28	С	And pedestrian friendly too!
P&C 2.29	С	This ability and variety makes Silverton what it is.
		WE ENVISION a Silverton where a year-round farmers market downtown connects the agriculture
		bounty of the region to our community, attracting visitors, supporting area farmers, and increasi
P&C 3		local resilience.
P&C 3.1	Q	"Year-round"?
P&C 3.2	C	produce doesn't naturally grow all winter in our region. +++ farmers market in natural season.
	Ť	I don't believe this business has to be downtown, but I wholly support the establishment of a local food cooperative which would
P&C 3.3	С	
P&C 3.4	C	
rau 3.4	L	Yes!
D000-	_	A year round community-owned market like Silverton Food Co-op will provide a strong connection and bond to our local small-s
P&C 3.5		family farms, while serving to educate and inform the public as to the benefits of supporting sustainable agriculture.
P&C 3.6	Q	Also, Silverton Food Co-op??
P&C 3.7	С	This would be on the very bottom of the priority list.
P&C 3.8	С	I hope to see it year-round.
P&C 3.9	С	YES!!!!!
P&C 3.10	Α	School lunchesWe need to improve them. Using local fruits, veggies, and proteins.
		Are we able to provide products for a year-round farmers market? Not much is growing around here in December It seems to
P&C 3.11	O	well from May through October.
		Farmers? who can't afford to farm, since the newcomers complain about the smoke so we can't burn the fields. ?Pollution?? W
P&C 3.12	Q	you rather we dump on the pesticides?
	_	
P&C 3.13	C	Strongly Agree!
P&C 3.14	С	Yes!! Silverton's historic past and charm will always be the primary reason visitors come here.
P&C 3.15	Q	Year round farmers market? What will they be selling in mid-February?
P&C 3.16	С	YES!
P&C 3.17	С	Year-round farmer's market may not be feasible
P&C 3.18	Α	Promote in our papers by local by fresh.
P&C 3.19	Α	Excellent idea. Turn the Eugene Field school property into a covered farmers market.
P&C 3.20	С	This is an absolute plus.
P&C 3.21	С	But not if I have to pay more taxes
		Not clear how a year-round market would work. What would be for sale during the winter? What does 'local resilience' mean in
P&C 3.22	Q	context?
P&C 3.23		Would love a year-round farmers market.
P&C 3.24		Personal preferences.
	Ť	Sometimes it's not possiblelike in really bad weather. But most of the year their could be other vendors there. Basically suppo
P&C 3.25	С	
P&C 3.26		a way to connect with people. Needed
P&C 3.26		
	С	Though I would take care not to "codify" the location as being "downtown." This is where "some degree of flexibility" becomes a
P&C 3.28	C	Local Co-Op!!!
P&C 3.29	С	I agree that a year-round Farmer's Market would be great, as long as there are health and safety regulations that are enforced.
P&C 3.30	С	See my previous comments about Eugene Field School.
P&C 3.31	С	Love this!
P&C 3.32	С	A big YES!!!
P&C 3.33	С	I'm not sure this should be an overarching goal but perhaps a tactic. I don't see the need for this year round.
		I was going to suggest this in another one of the surveys! Thank you for putting it in! I thought perhaps we could create a cover
P&C 3.34	Α	market where people could bring their goods. (But please make sure they take debit cards.)
IP&C 3.35		
P&C 3.35 P&C 3.36	С	This a strong point for our communitykeep it going.
P&C 3.36	C	This a strong point for our communitykeep it going. Year round is a bit difficult for farmer market.
P&C 3.36 P&C 3.37	C C A	This a strong point for our communitykeep it going. Year round is a bit difficult for farmer market. Let's get that co-op in town too!
P&C 3.36	C C A	This a strong point for our communitykeep it going. Year round is a bit difficult for farmer market. Let's get that co-op in town too! We should develop a block downtown to hold farmers markets/artist and crafts events throughout the year.
P&C 3.36 P&C 3.37	C C A	This a strong point for our communitykeep it going. Year round is a bit difficult for farmer market. Let's get that co-op in town too!

		WE ENVISION a Silverton where Silver Creek and Silverton Reservoir have been enhanced as o
		community's most prominent natural features, with improved public access and creek side ameni
P&C 4		that add to our quality of life.
P&C 4.1	С	people have to be careful if they think they can enhance natural features. access can be nice.
P&C 4.2		Provided that such enhancements support protection of our water, I agree.
P&C 4.3		Yes!
P&C 4.4		Many people still do not know the potential dangers of a dam breach.
P&C 4.5		just needs a good clean up
P&C 4.6		Hiking path from reservoir to Coolidge Park. Better patrols at the reservoir.
P&C 4.7		we need to do more of this
		More public access to the creek = more pollution and disruption to the fish and animals that need it to survive. We need to mair
P&C 4.8	Α	the waterways as animal habitats.
P&C 4.9	С	This is a low priority in the long-term scheme of things.
P&C 4.10	С	A long untapped attribute of Silverton!!
		The reservoir development has become a small disaster with too many people crowded into the space. Creekside trails and
		amenities only serve to erode the quiet "escape" value that many natives grew up loving. The easiest way to ruin a quiet natura
P&C 4.11		experience is to make it easy to access and convenient for any and all to use. Add a toilet, you place the final nail in the coffin.
P&C 4.12		Not sure if wise use of funds. Other more pressing needs.
P&C 4.13	С	Umm Sure. Leading question, thank you very much.
D00444	_	Absolutely. Restaurants with decks overlooking the creek are a huge draw for people from Salem, Portland and tourists. I
P&C 4.14		recommend supporting this financially and in any way possible. The flower baskets are wonderful and also add to charm and
P&C 4.15	Q	But how do we pay for parks & recreation when our focus has to be on aging infrastructure? A bike pedestrion trail from the recent our to town would be good for committee and towning. The business in town peed more the
P&C 4.16	Α	A bike pedestrian trail from the reservoir to town would be good for committee and tourism. The business in town need more the
P&C 4.16		local money which is limited. Not as long as there is a dam that could break if there was an earthquake. How many city officials would be affected? I suspect
P&C 4.17		Love this idea
P&C 4.19		build a multi-use path out south water street to the reservoir. It's not too far to walk/bike and it gets you out to a beautiful place.
P&C 4.20	A	Leave the creek alone unless it is to keep it clean and unblocked.
1 0.0 1.20		I do think this is a good idea, however, there are more important things that need to be addressed before more money is frivolo
P&C 4.21	Α	spent on cosmetic things. Like fix the dam, fix the roads, fix the traffic problems.
		If possible, more access to the perimeter of Silverton Reservoir including wheelchair access if possible. Is there any type of
P&C 4.22	Α	bus/public transport to and from the reservoir esp. in the summer?
P&C 4.23	С	Yes! This needs a task force.
P&C 4.24		Why? Everyone knows it's there
P&C 4.25	_	Yes!!!
P&C 4.26	С	While I believe this is a wonderful aspiration. I do not think it is realistic for 2035.
D0 0 4 07		The Oregon Garden must be included in all plans. What a wonderful resource! This is a win/win for everyone. Farming, includir
P&C 4.27		wine industry, is essential to the prosperity of Silverton. Also include our city park and Silver Creek Falls.
P&C 4.28 P&C 4.29	C	Both Silver Creek and Silverton Reservoir are just fine the way they are don't be changing anything.
P&C 4.29	A	Not a place to prioritize funds, other than in maintaining its structure in effort to prevent flooding. This is certainly one place where volunteerism is lacking. We need to clean up these beautiful areas and keep them well tended
P&C 4.31	C	We live on Silver Creek and have always considered that the community owns the creek and should have access to all of it.
P&C 4.32	A	Let's put som canoes/ kayaks in these places for people to use!
1 40 4102		Agree but only if we support the Public Works and Police Officers who will need to be there due to the number of people. Seem
		the reservoir is taken over by those drinking and acting out, which is why I don't take small kids there. If the police were there a
P&C 4.33	С	able to get around, it would help a lot.
		WE ENVISION a Silverton where its rich heritage is kept alive through events, programs and
P&C 5		experiences, keeping our community's past relevant – and making our future more confident.
P&C 5.1	Q	How can a year round farmers market be financially feasible?
1 &C 3.1	•	Same comments about making past more diverse at least some of the time. Definitely being more inclusive with regards to the
P&C 5.2	С	Capability and character, personal accountability & community contribution being key "selection criteria"
P&C 5.3	C	parades are a hit!
P&C 5.4		YES!!!!
P&C 5.5		we must get our younger Silvertonians engaged in all aspects of keeping our community strong
		There should be an area where we can all gather and not worry about traffic. I loved the plan that included a street to be blocke
		and set up for these wonderful events. It helps the pedestrians feel safe (especially those with small children) and the drivers fe
P&C 5.6	С	they aren't "caught up" in an event and feel frustrated with our area.
P&C 5.7	С	We have the Pet Parade and Homer Davenport Days - those seem to be ample events for our small town.
P&C 5.8	С	No more tourists please. But you can keep the Pet parade.
	_	Adding events and programs for the sake of adding them is costly and counterproductive. Perhaps working to improve those events
P&C 5.9	С	and programs we have is a better answer.
P&C 5.10	С	
P&C 5.11		Yes!

		Also need to acknowledge parts of past were disreputable (KKK history) and form community response to it's revival, such as re
P&C 5.12	Α	distribution of KKK material.
P&C 5.13	Α	Running / biking events from Down Town area would promote the town and help business. These events are big money maker
P&C 5.14	Α	The Pet Parade & Homer Davenport Days should be heavily promoted and marketed.
		Keep the events LOCAL in nature and primarily aimed at the locals. I live in Bend and everything is aimed at the tourists. Does
P&C 5.15	Α	promote good feelings.
		clubs/nonprofits could develop many more local activities/events in neighborhoods, parks, schools. not big events like Homer D
P&C 5.16	Α	just fun local activities such as group walks/rides, barbecues, neighborhood yard sales - inclusive activities.
		When we have parades, where are our bands (school bands, marching bands that ask for donations for uniforms, instruments)
P&C 5.17	Q	aren't they representing themselves? Keep the politicians out of our parades.
P&C 5.18	C	Community events are important. How to get involved is always the question and sometimes it seems that it's difficult to find ou
P&C 5.19	C	In addition, new ideas can be embraced as this town grows, keeping in tune with the changing times.
P&C 5.20	A	Just keep what we have done no more tourist traps
P&C 5.21	Q	What does this even mean?
P&C 5.22	Č	Love all the events
P&C 3.22	-	
		Events like Davenport Days, the Oregon Garden fireworks display (or movies in the garden), and the Pet Parade are cute, quirl
D0 0 5 00		events that encourage people to visit our town. This kind of tourism is just as important as the pit stops folks make at Roth's for
P&C 5.23		before they head up to the Falls.
P&C 5.24	С	I guess I believe we need to live in the present and plan for the future.
	١.	this means we HAVE to build a cohesive team of people for our art festivals and other festivals so that they are good enough
P&C 5.25	Α	vendors providing food and art to outside members of the town.
P&C 6		Optional: What is one action or strategy to help achieve this vision?
		Preserve by NOT allowing BIG CORPORATIONS (i.e. Rite Aid and Dutch Bros) to put our local small businesses out of bus
P&C 6.1	Α	More city planning along those ideas.
P&C 6.2	С	Investment of time.
		Benches located around downtown (and other centers) have an interesting person or event/story to read on them. Effect is
P&C 6.3	С	even if one is sitting to rest, he/she is learning about the town's history.
P&C 6.4	A	Embrace multi-cultures in Silverton - Hispanic, Russian, Oriental.
P&C 6.5	Α	Hist. Soc. involvement in community.
	1	• Silverton should select the most fitting standards for sustainable and resilient communities and certify as a sustainable and
		resilient community within 5 years. • Silverton will be good stewards of the natural resources that we have historically relied
		to ensure that our future generations will have the same or a better standard of living as we enjoy today. • Eliminate energy
		water waste in industry, community, and infrastructure. • Demonstrate that the amount of water withdrawn from the water cy
		does not exceed the amount of freshwater entering the system via precipitation, river flow and other sources, to ensure that
		Silverton does not deplete its water supply. • Increase the use of sustainable agricultural practices which increase the soil he
D0000		and retention and do not pollute waterways due to agricultural runoff. • Provide maximum support to local food ventures, such
P&C 6.6	Α	the farmer's market, SilvertonFood Co-op, and other ways of connecting local residents to locally-grown food.
	_	Provide maximum support to local food ventures, such as the farmer's market, the coop, and other ways of connecting local
P&C 6.7	Α	residents to locally-grown food.
		Again, we need to allow the professionals we employ at the city to do their work in a way that is energizing to both them and
		community. City Council should rely on them for advice and direction rather than challenging all of their ideas as if they don'
P&C 6.8	Α	what we pay them to know.
P&C 6.9	Α	Let Bimart come to town so we can keep more revenue here instead of people going to Salem.
		Intentional reaching out to leaders who are in their 30's and 40'sgetting their inputgetting them involvedwhen I look at 1
		"leaders" of our communitythey are in their 50's and 60'swe need all ages at the tablesidentify some uninvolved memb
		and think of ways to engage themget their ideasinvolve them in planning and get them to involve others in their same aç
P&C 6.10	Α	group. Understanding the pressure and "busy-ness" of being young parentswe need their voices
		Silverton should select the most fitting standards for sustainable and resilient communities and certify as a sustainable and
P&C 6.11	Α	resilient community within 5 years.
		Improve upon existing events and programs rather than add more for the sake of having more events and programs. Quality
P&C 6.12	Α	quantity. Adding events and programs taxes local resources.
P&C 6.13	Α	We should close off downtown and make a walking mall.
P&C 6.14	Α	Consider forming a Parks & Recreation special district
P&C 6.15	С	City Gov. that is interested in being proactive .people with a vision and committees to help put it together .
P&C 6.16	C	Slick, commercial activities are not the answer. Make it possible for anyone to participate.
P&C 6.17	Q	Most of these questions are so lame. What is there do disagree with?
	 	Yearly downtown dinner, tables in the streets, offering local farmers or local businesses the chance to show off their food (the
P&C 6.18	A	should be an expensive event) all proceeds could go to enhancing the farmers market, and other local venues.
P&C 6.19	c	I would like to see a river walk that connects from the park through downtown to post office.
P&C 6.20	C	
F&C 0.20	-	Sales or property tax Stop taking down old buildings, stop togring down troop, stop the ramport commercialism and chain proliferation. What's no

P&C 6.21	A	Walmart?
P&C 6.22	Α	Support and develope programs for small local business's to thrive including local food products.

		If we had more parking near downtown (see comments about Eugene Field) could we institute a small shuttle running betwee
		downtown and The Oregon Garden on a regular, daily basis? I believe The Oregon Garden will be expanding a feature that
P&C 6.23	Q	speak to our Oregon heritage that will bring additional visitors.
		We need more buy-in from the downtown businesses to collaborate with each other and create events and experiences for
		shoppers. For example, we sit on the edge of the Oregon Garden with a wonderfully vibrant Christmas event that last over a
		month; however, local businesses do little to bring those tourists into town. More spirit and vibrancy is needed in this area w
		know takes money and energy but I would believe would pay for itself in the long run. But that is just a specific example, ove
P&C 6.24	С	the town needs more collaboration and innovative marketing beyond First Friday.
P&C 6.25	С	Longer walking paths by the creek. More city walking paths.
P&C 6.26	Α	We need to develop the Silver Creek Water Front.
P&C 6.27	Α	Ask more people to be involved.
		Silverton should select the most fitting standards for sustainable and resilient communities and certify as a sustainable and
P&C 6.28	Α	resilient community within 5 years.
D0 0 0 00		Silverton will be good stewards of the natural resources that we have historically relied upon, to ensure that our future
P&C 6.29	Α	generations will have the same or a betterstandard of living as we enjoy today.
P&C 6.30	Α	Eliminate energy and water waste in industry, community, and infrastructure.
D0 C C 24	_	Demonstrate that the amount of water withdrawn from the water cycle does not exceed the amount of freshwater entering the
P&C 6.31	Α	system via precipitation, river flow and other sources, to ensure that Silverton does not deplete its water supply.
P&C 6.32		Increase the use of sustainable agricultural practices which increase the soil health and retention and do not pollute waterwater agricultural rupoff
F&C 0.32	Α	due to agricultural runoff. Provide maximum support to local food ventures, such as the farmer's market, the coop, and other ways of connecting local
P&C 6.33	Α	residents to locally-grown food.
	_	
P&C 7		Optional: Do you have any new ideas or additional comments you would like to share?
D0C74		We need to focus on connectivity. Less money for police, more for local needs such as streets sewers, parks, places for per
P&C 7.1 P&C 7.2	A	(local and not) to congregate and enjoy Silverton. Parks, green space -not connected to schools.
F&C 1.2	A	Posters Articles in Print Articles on line - social media sites. First Fridays. I will help wherever I can. Signage: identifying business(es) - not just on Main between water and First - but entire town. Walkability by creek. City doe
P&C 7.3	Q	support community and water - can they do more?
1 40 7.5	· ·	I see this as touchy area and I am not sure how divisive of an issue racial and cultural inclusion. It's possibly something that
		needs to be acknowledged as a challenge - however I don't see it as a top priority to fix for near term. Near term priorities as
		water/sewer infrastructure (impacts everyone resident or visitor, rich or poor, pink or purple, etc., 2) emergency preparednes
		(with multiple priorities within that, some of which could come after # 3) 3) economic development & diversification. My two i
		1) advanced higher education w/links to agricultural & natural resources/recreation and 2) a hybrid of eco-tourism, agro-tour
P&C 7.4	С	and adventure travel (from high intensity ice climbing to guided wine tours comparing "terroir")
P&C 7.5	C	Be careful with "enhancing"our "natural features"
		The only thing I'd like to mention is that some people may not feel history is a huge thing. We see those things around town
		are very cool and all, but I think that most kids (who are our future) do not necessarily see it as important. I definitely do! I'm
		saying if you ask most young adults they will likely say it doesn't matter. So, maybe we have to be more excited about it or
P&C 7.6	С	something as adults? I don't know??
P&C 7.7	Α	Encourage and create alternative water sources, such as residential and commercial rainwater catchment
P&C 7.8	Α	Again, our City Manager needs to retire ASAP and we should find a visionary rather than a place-holder to lead our efforts.
		It would be great to have the trail alongside the creek continue up to the reservoir like it has been suggested. However, it is
P&C 7.9	С	essential to maintain the creek undisturbed by a trail and the people who use it, much like the first part past the swimming p
D00 - 15		Silverton's history is important, but living for the future means not necessarily dwelling on the past unless we look into the past
P&C 7.10	С	ensure we don't make future mistakes. Thus, the important of vision and strategic planning for the future.
D00744		Heard about this at work the other day, and I have to agree that is the most poorly designed survey I have ever encountered
P&C 7.11	Q	Seriously, people, WTH were you THINKING?
P&C 7.12	Α	Honor ag heritage with plantings of native & edible plants in public spaces of central city and parks.
P&C 7.13 P&C 7.14	C	We do not have to reinvent programs or events, use what other towns and cities have already implemented.
F &C 7.14		I was in town last year. Some of the old, unused buildings looked kinda slum like. Don't let things rot in place. I have a lot of ideas for silverton Local resident garden tours, Night markets, improving sidewalks to get to downtown areas
P&C 7.15	Α	ways to get more tourists here and help silverton thrive! Email me epage16@hotmail.com if you would like to hear more of r
1 &C 7.13	_	Downtown is greatest asset. People from surrounding areas will come to downtown if events are family oriented, but fun for
P&C 7.16	С	ages. It works for many towns across country.
P&C 7.17	C	'Would like to be part of group discussions.
	Ť	Something I've noticed over the past ten years is a decline I our town for "use"less people at the movies, at the park, on
		Halloween the streets are not at all what they used to be (so many dark front porches, etc.)maybe try to find a way to keep
		people that live here, spending they're money here. A short Halloween parade that ends at Eugene field since they work so
1		on their event. And newer movies available, and more stuff to do, like the new ice skating rink. Maybe a roller skate rink? A
P&C 7.18	Α	children's treasure hunt day would get ppl involved in local businesses. If these businesses had better prices that would help
P&C 7.19	C	Well there's 8 minutes of my life I'll never get back.

		I would love to see a food co-op in town that recognized low-income, seniors, and stay at home mothers with a discount. A cc
		another part of town offered 10% discount and my family could afford healthy,local,organic food that offered a healthy diet a
		further sustained and benefited local farmers. Let's face it Roths is too expensive and safeway either doesn't carry what you
P&C 7.20	С	need, is out of what you need or you get raided with fruit flies from the fruit. Let's get something new on town.
P&C 7.21	Α	We need to develop the Silver Creek Water Front. We need to encourage Agriculture within the city limits.
'
